City of Newark, N. J., Storage Reservoir Bonds, Dated April 1, 1905

Eugene Farrell, Esq.,
Acting City Auditor,
City Hall, Newark, N. J.

Dear Mr. Farrell:—

I have your letter of December 27. I return herewith the papers sent with the letter.

I find that we passed upon the legality of the \$5,000 Storage Reservoir Bonds numbered from 1425 to 1429, inclusive, which are described in the papers. I also find that they were re-issued in July, 1936, pursuant to a resolution passed on July 8, 1936. There is, in my judgment, nothing to prevent the City from issuing new bonds in exchange for the old bond, provided the holder will pay all expenses, as required by Section 40:1-57 of the Revised Statutes.

I also enclose herewith a form of resolution which might be passed by the Board of Commissioners for the purpose of authorizing the reissuance of the bonds. The new bonds should be identical in form with those now held by The First Bank and Trust Company of Perth Amboy, except that appropriate changes should be made in the fourth paragraph of the bonds. to indicate that the new bonds are being issued in exchange for "defaced" bonds, and except that the coupons should be authorized by the signature of the present City Comptroller.

You will, I assume, let me know if

you want us to superintend the preparation of the new bonds.

Sincerely yours,
Lester H. Washburn.

Ordered filed.

Commissioner Murphy offered the following resolutions:

WHEREAS, George Fullerton of the City of Perth Amboy, New Jersey, is now the owner of \$5,000 Storage Reservoir Bonds of The City of Newark, dated April 1, 1905, payable April 1, 1955, bearing interest at the rate of three and one-half per centum (3½%) per annum, payable semi-annually on April 1st and October 1st and consisting of five bonds of the denomination of \$1,000 each, numbered from 1425 to 1429, inclusive, heretofore issued pursuant to resolution duly adopted by the Common Council of said City on the 10th day of March, 1905 and by the Board of Commissioners of said City on the 8th day of July, 1936, and said bonds have been defaced, and said George Fullerton desires that said bonds be reissued pursuant to Section 40:1-57 of the Local Bond Law: NOW, THEREFORE,

BE IT RESOLVED By the Board of Commissioners of The City of Newark that said bonds be reissued pursuant to and in accordance with Section 40:1-57 of the Local Bond Law, at the expense of said George Fullerton, and that the Mayor, City Comptroller and City Clerk be and they hereby are authorized and directed to execute said reissued bonds, and that the City Comptroller be and he hereby is authorized and directed to deliver said reissued bonds to said George Fullerton in exchange for said outstanding bonds.

FURTHER RESOLVED, That the bonds to be issued pursuant to this resolution shall be in the form and tenor of said outstanding bonds, ex-

cept that each of the interest coupons to be attached to said bonds shall be authenticated by the fac-simile signature of the City Comptroller now in office, and that each of said bonds shall recite that such bond has been reissued pursuant to the Local Bond Law of New Jersey and this resolution, in place of a defaced bond of like form and tenor, originally issued pursuant to said resolutions adopted on the 10th day of March, 1905 and on the 8th day of July, 1936.

The Board of Commissioners of

H. S. REICHENSTEIN
City Clerk.

Newark, N. J., January 31, 1940.

A regular meeting of the Board of Commissioners of The City of Newark, N. J., was held on the above date, in the Commissioners' Chamber, City Hall, Newark, at 11 A. M., Standard Time.

Present: Commissioners Byrne, Franklin, Murphy, Mayor Ellenstein.

Mayor Ellenstein: The Clerk will read the minutes of the previous meeting.

Commissioner Murphy: I move the reading of the minutes be dispensed with.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners B y r n e, Franklin, Murphy, Mayor Ellenstein.

The City Clerk presented "An Ordinance to rescind the ordinance entitled 'An Ordinance authorizing the issuance of \$1,175,000 Poor Relief Bonds of The City of Newark'", adopted on the 13th day of September, 1939, and stated that today was the time fixed for a further hearing, this being the adjourned date for same.

Commissioner Murphy: I move the ordaining clause be stricken.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners B y r n e, Franklin, Murphy, Mayor Ellenstein.

Commissioner Murphy introduced the following ordinance and moved its adoption on first reading.

The Clerk then read the ordinance at length:

An Ordinance authorizing the issuance of \$1,175,000 Poor Relief Bonds of The City of Newark.

The Board of Commissioners of the City of Newark, Do Ordain as follows:

Section 1. The Board of Commissioners has ascertained and hereby determines that it is necessary that the City of Newark raise the sum of \$1,175,000 for the relief of the poor, including direct relief, expense of administration, the payment of any indebtedness heretofore or hereafter incurred for the relief of the poor, and the cost of the issuance of the bonds hereinafter described.

Section 2. For the purpose of raising said sum, there shall be issued pursuant to Chapter 332 of the Laws of 1939 of New Jersey, as amended by Chapter 395 of the Law of 1939 of New Jersey, bonds of The City of Newark of the aggregate principal amount of \$1,175,000 to be designated "Poor Relief Bonds of 1940."

Section 3. Said bonds shall bear interest at a rate which shall not exceed six per centum (6%) per annum, payable semi-annually, and shall be dated March 1, 1940.

Section 4. Said bonds shall be payable in annual installments as follows, viz.: \$235,000 of bonds on March 1st in each of the year 1941 to 1945, inclusive.

Section 5. Said bonds shall be general obligations of said City and a tax sufficient in amount to pay the principal of and interest on said bonds shall be levied and collected

by said City in the year in which the same shall become due and payable. Each of said bonds shall contain a recital that it is issued pursuant to said Act in the manner or mode of procedure prescribed by the Local Bond Law of New Jersey.

Section 6. The bonds which are to be issued pursuant to this ordinance shall be issued in lieu of and not in addition to the bonds authorized by the ordinance entitled "An Ordinance authorizing the issuance of \$1,175,000 Poor Relief Bonds of the City of Newark," adopted by the Board of Commissioners on the 13th day of September, 1939, and said ordinance adopted on the 13th day of September, 1939, is hereby rescinded.

Section 7. This ordinance shall take effect at the time and in the manner provided by law.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners B y r n e, Franklin, Murphy, Mayor Ellenstein.

Commissioner Murphy moved that February 14th, 1940, at 11 A. M., Standard Time, or as soon thereafter as said matter can be reached, and the Board's meeting room, second floor, City Hall, Newark, N. J., be fixed as the time and place when and where said ordinance will be further considered for final passage, and that the City Clerk be and he is hereby directed to publish said ordinance and give public notice of its introduction and passage on first reading as provided by law.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners B y r n e, Franklin, Murphy, Mayor. Ellenstein.

Commissioner Murphy: I would like

to say, Mr. Mayor, that ordinance will automatically rescind a previous one on the records pertaining to relief. We did not know whether we were going to get the payments from the State or not. We had set up in the budget, if you recall, \$700,000 for the revolving fund. Of course, that has been eaten up due to the fact the State has come along and demanded 75 per cent. instead of about the twelve and one-half per cent. that you used to pay. Now, of course, this will give us a chance to spread the bonds over a period of five years in creating that revolving fund so that we will be able to keep the vendors and landlords paid up to date. Otherwise, we are going to be practically three or four months in arrears again. So under this we can spread that out over the period of five years. Of course, it won't affect the budget as of this year, with the exception of the interest that has to be set up.

The City Clerk presented An Ordinance to supplement and amend ordinance entitled "An Ordinance concerning the operation and maintenance of open air parking stations in The City of Newark, and providing for the licensing thereof," adopted June 15, 1932, and stated that today was the time fixed for a further hearing, this being the adjourned date for same.

Commissioner Murphy: I move it be deferred for two weeks.

SCHEDULE A

This Schedule contains terms, conditions and provisions which are to be incorporated in clear and concise language in the lease to be prepared and executed as provided in the within resolution.

These terms, conditions and provisions shall be contained in the said lease in addition to the usual and common provisions for the protection of the respective parties.

1. The lease shall be for a period of one year with the right of the Brewster Aeronautical Corporation, hereinafter referred to as the Lessee or as the Tenant, to renewal options for two successive periods of one year each, followed by two further successive periods of five years each.

2. The annual rental for all of the period mentioned in Paragraph 1 shall be at the rate of 20c per square foot.

3. The Tenant agrees that the City of Newark, hereinafter referred to as

the City, shall at any time during the term of the lease, and upon six months notice given in writing by the City, have the right to move the tenant from the premises herein leased into another building on the Airport erected by the City for such purpose, the expense of moving to be borne by the Tenant.

Any building so erected shall be constructed to the Tenant's specifications and requirements.

The rental charge for such building in such event shall be 25c per square foot per year.

4. The City agrees that at any time during the Tenant's occupancy of the hangar that it, the City, will construct promptly upon request, and at its expense, and to Tenant's specifications, a balcony or balconies for which the Tenant shall pay an additional annual rental at the rate of 20c per square foot, provided, however, that the building will not by such addition be injuriously affected, and subject to mutual and equitable agreement between the City and the Tenant at the time of the request above mentioned.

5. The City will guarantee to have bus line transportation maintained to the field adequate for the needs of Tenant's employees.

6. The City will protect the buildings of the Tenant with adequate police protection.

7. The City agrees that during the Tenant's occupancy, it will give to tenant reasonable use of the Airport for testing purposes, provided such use shall not unduly interfere with the use of the Airport for commercial aviation, and the City will provide normal egress and access to the property leased to Tenant.

8. The tenant shall have the right to erect identifying signs upon the

hangar, provided, however, that in this respect, and also with respect to all other provisions of the lease, the Tenant will comply with all Federal, State and Municipal laws and ordinances.

9. The City will provide, without charge, at a proper place designated by it, adequate parking facilities for the exclusive use of the Tenant's employees during the period of the lease, it being understood that the Tenant will not permit public parking on such space, nor charge for parking upon it.

10. Tenant is to have complete occupancy of the hangar by March 1, 1940.

In lieu of the City making requested alterations at its expense, as set forth in Tenant's proposal, it is agreed that the Tenant shall have the privilege of making certain alterations necessary to modify the hangar for industrial use, and in such event the City will allow as a credit on rentals due on allowance up to \$35,000.00 against these expenditures, provided that the tenant shall expend a minimum of \$70,000.00 on these improvements, and provided further that if the alterations as actually made to the building by the Tenant are found to cost less than \$70,000.00, the City's share, or the sum of money allowed by the City as an off-set against rent, shall be proportionately reduced.

11. For two years after the execution of the lease by the City and the Tenant, the Tenant shall have an option to rent all or any part of ten acres of land in the Airport immediately adjacent to and west of the hangar as the same shall be set forth and designated on a blue print or survey to be annexed to and made a part of the lease.

The Tenant shall have the right to rent or lease this land for a period of forty years at a rental of \$500.00

per acre per year, provided that this option shall terminate if the lease of the hangar and appurtenances shall terminate prior to the expiration of the two year option period, unless the Tenant shall have constructed new buildings of the type contemplated in Paragraph 12 upon the land leased under such option.

12. The City agrees with the Tenant that if the Tenant exercises its option to lease the said ten acres mentioned in Paragraph 11, or so much thereof as is necessary, and upon said land constructs a building with square footage at least approximately equal to the square footage of the hangar, such building to cost not less than \$250,000.00, and the work on such building to be commenced within six months after the cancellation notice herein mentioned, and if the Tenant agrees in its lease of said land that all of the terms, covenants and conditions of this lease of the hangar, which are beneficial to the City, and which can be at all applicable to the lease of the said acreage, be made a part of the lease of said acreage, then and in that event the Tenant shall have the right to cancel the lease on the hangar upon six months notice in writing to the City.

It is understood and agreed that the City will use its best efforts to induce the Newark Industrial Commission to float a bond issue to finance seventy-five per cent (75%) of the cost of such building or buildings at an average interest rate of three per cent per annum.

The City agrees with the Tenant that during the forty year term of the lease to the acreage, if it be made, and during the term of this lease, there will be imposed no taxes on land or buildings, or on any machinery or equipment affixed thereto in such a way, and with such intent as to make it a part of the realty, nor on any of the Tenant's bank accounts in the City of Newark, and that the

City will save the Tenant harmless from any litigation in connection with said taxes.

The City agrees that at any time during the period of said leases, the Tenant shall have the right to purchase said land at its present value per acre, to be established by mutually satisfactory independent appraisals it being understood that the rental of \$500.00 per acre is not to be used as a criterion of value.

13. The Tenant represents to the City that its present back-log of business, based upon non-cancellable contracts, is approximately \$22,000,000.00 and, based upon such business and subject only to conditions beyond Tenant's control, the Tenant guarantees the City that during the first two years of this lease it will employ a minimum of 1,500 people, which represents a pay roll of approximately \$2,125,000.00 annually.

The Tenant further agrees that as far as it may be possible and practicable, the employees of the Tenant will be drawn from the relief rolls of the City of Newark, and where that is not possible preference will be given to residents of the City of Newark.

14. It is agreed that the cost of adequate insurance, and normal maintenance of the buildings leased be at the expense of the Tenant.

15. Brokerage commissions shall be payable by the City, but only out of rentals received.

Mayor Ellenstein: I want to say to the City Commission that I have been in communication with executives of the Brewster Aeronautical and read the proposed changes as a result of the conference of the City Commission yesterday afternoon and early evening, and they informed me that if we submit a certified copy of the

resolution passed by the majority of the City Commission, they would take it under advisement; and since this was in the form of a counter-proposal, if they decided to accept, they would have an acceptance in my hands either this evening or early tomorrow morning. That is the status of that. I made not no definite commitments as to the acceptance. They said they would give it consideration, and that they gave me after considerable persuasion on my part.

Deputy Director Masini: May I say something for Director Byrne? He is on his way over.

"Since the Brewster proposal is of such importance to the City of Newark, I am not ready to vote or pass judgment on the proposition today.

"However, since the majority of the Commissioners have expressed their approval of the negotiations, I reserve the right to vote yes or no when the Brewster Company has accepted same, and when the lease is offered to the City Commission in its final form."

He will be here maybe before the meeting is over.

Mayor Ellenstein: Are we ready to vote on the resolution?

Commissioner Murphy: Of course, I haven't checked over those things. I take it for granted they are in line.

Mayor Ellenstein: If you want to check it over, all right. If you want to take the Corporation Counsel's statement—

Mr. O'Brien: What I did was to take the proposal of the Brewster Aeronautical, eliminating from that the parts that were eliminated by modification by the Industrial Commission or the City, and then brought up the Schedule containing all that had been agreed upon.

I think it would be wise to check it over.

Commissioner Murphy: It will only take a minute.

Mayor Ellenstein: All right. Here is the original proposal.

Commissioner Murphy: I have got a copy of the whole thing.

Mayor Ellenstein: For the purposes of the record and in pursuance of the general understanding had at the last Commission conference, I want to say that it is understood by the members of the City Commission, and the question was raised by Commissioner Franklin at the conference yesterday, that this rental basis is not predicated upon land values, but the Commission gave full consideration to the number of people that would be employed there and the spending power that would be created in the City and the opportunity of finding employment for the large army of unemployed — at least, part of the large army of unemployed we have in our city. And that was the consideration that prompts the City Commission in the approval of this proposal.

Commissioner Franklin: With respect to the \$500. per acre in the Airport area.

Mayor Ellenstein: In the option.

(Discussion off the record between Director Murphy, Corporation Counsel O'Brien, and Deputy Director Cozzolino, out of hearing of the stenographer.)

(Commissioner Byrne entered the council chamber at 2:43 P. M.)

At 2:59 P. M.

Mayor Ellenstein: All in favor of the resolution as read by the Clerk will signify by saying aye, contrary no; the Clerk will call the roll.

The roll being called, the resolution was declared adopted by the following votes:

Yes: Commissioners Franklin, Murphy, Mayor Ellenstein.

Not Voting: Commissioner Byrne.

Mayor Ellenstein: The resolution is carried.

Commissioner Murphy: Mr. Mayor, I just want to make a short statement that I would like to have the Commission—I would like to have the Corporation Counsel take into consideration, and which I will present and send to each member of the Commission a copy of a resolution — whether it has to be revised or not — seeing what we can do, through the compromise procedure of trying to bring in whatever portion we can of about \$15,000,000 of outstading taxes in arrears.

There was a question about compromise some time ago. Now, I think if something can be worked out whereby this Commission can agree in certain justifiable cases—

Mayor Ellenstein: That is a subject removed from the subject of this Special Meeting.

Commissioner Murphy: I only want to say I want to notify you I want to send you a letter on this for your consideration so we can have a conference, if necessary, on it.

Mayor Ellenstein: That is right.

Commissioner Murphy: Sooner than having it hanging around here I would like to have a conference on it.

Mayor Ellenstein: I think that meets with the approval of all the Commission.

Commissioner Murphy: There we can help a lot of the taxpayers.

Mayor Ellenstein: Suppose you do that.

I will entertain a motion to adjourn.

Commissioner Byrne: I so move you.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners B y r n e, Franklin, Murphy, Mayor Ellenstein.

Vincent J. Murphy,
Director of Revenue and Finance.

Mayor Ellenstein: We will now proceed with balloting on candidates to fill the vacancy as exists in the City Commission.

And I want to say now, and particularly now, so that I cannot be charged with making this statement for political purposes, and reiterate my position, and too, in all fairness to other candidates whose names have been presented here, and particularly Mr. Keenan, who is now the Acting Director of Public Safety, that I believe under our Democratic form of government that there should be a representation of all denominational groups, particularly so when the voters have declared their intention in the 1937 City Commission election. Commissioner Minisi was the sixth man. He withdrew as a candidate, but urged upon the City Commission that they do select a fifth member of Italian extraction. I think that is well grounded claim that the Italian-American representatives of this City have, and for that reason I will present only the names of Italian-Americans, notwithstanding what may have been said in the press, because I am of the firm conviction that it is consistent with our Democratic form of government, and that the voters in the 1937 election by selecting Mr. Minisi, have declared their intention in that way.

Now, I have not presented merely one Italian-American name, I have not presented merely an Italian-American who was a Democrat. The five names I presented are outstand-

ing citizens, in my opinion, of this community who happen to be of Italian-American extraction.

And I refrained from making this statement prior to the referendum, but I do make it now so my position may be thoroughly understood now and for all time. (Applause).

Are there any proposals that any of the Commissioners have to make?

Commissioner Byrne: Mr. Thomas Guthrie.

Mayor Ellenstein: As many as are in favor of Thomas Guthrie being chosen to fill the vacancy will signify by saying aye, contrary no; the Clerk will call the roll.

On roll call: Commissioner Byrne voted aye; Commissioners Franklin, Murphy and Mayor Ellenstein voted no.

Mayor Ellenstein: Mr. Guthrie is declared not elected, having received but one vote.

Are there any other recommendations?

Commissioner Franklin: James Pellecchia, Jr.

Mayor Ellenstein: Director Franklin presents the name of James Pellecchia, Jr. As many as are in favor of Mr. Pellecchia being chosen to fill the vacancy will signify by saying aye, contrary no; the Clerk will call the roll.

On roll call: Commissioner Franklin and Mayor Ellenstein voted aye; Commissioners Byrne and Murphy voted no.

Mayor Ellenstein: Mr. Pellecchia having received but two votes is declared not elected.

Are there any other proposals?

I will present the name of a man who is not only an Italian-American but Labor's unanimous choice: Louis R. Mazzei. As many as are in favor of Mr. Mazzei being chosen to fill the vacancy will signify by saying aye, contrary no; the Clerk will call the roll.

On roll call: Commissioner Franklin and Mayor Ellenstein voted aye; Commissioners Byrne and Murphy voted no.

Mayor Ellenstein: Mr. Mazzei received but two votes is declared not elected.

Are there any other presentations?

Commissioner Byrne: J. Victor D'Aloia.

Mayor Ellenstein: Director Byrne presents the name of J. Victor D'Aloia. As many as are in favor of Dr. D'Aloia being chosen to fill the vacancy will signify by saying aye, contrary no; the Clerk will call the roll.

On roll call: Commissioner Byrne voted aye; Commissioners Franklin, Murphy and Mayor Ellenstein voted no.

Mayor Ellenstein: Mr. D'Aloia having received but one vote is declared not elected.

Are there any other presentations?

I will present the name of a lawyer and an outstanding Italian-American in our City, Carl Abruzzese. As many

as are in favor of Mr. Abruzzese being chosen to fill the vacancy will signify by saying aye, contrary no; the Clerk will call the roll.

On roll call: Commissioner Franklin and Mayor Ellenstein voted aye; Commissioners Byrne and Murphy voted no.

Mayor Ellenstein: Mr. Abruzzese having received but two votes is declared not elected.

Are there any other presentations?

I will present the name of another outstanding Italian-American, a former Judge in the City, Judge Ralph Villani. As many as are in favor of Judge Villani being chosen to fill the vacancy will signify by saying aye, contrary no; the Clerk will call the roll.

On roll call: Commissioner Franklin and Mayor Ellenstein voted aye; Commissioners Byrne and Murphy voted no.

Mayor Ellenstein: Judge Villani having received but two votes is declared not elected.

Are there any other presentations?

Commissioner Byrne: Charles R. Hardin.

Mayor Ellenstein: Director Byrne presents the name of Charles R. Hardin. As many as are in favor of Mr. Hardin being chosen to fill the vacancy will signify by saying aye, contrary no; the Clerk will call the roll.

On roll call: Commissioner Byrne voted aye; Commissioners Franklin, Murphy and Mayor Ellenstein voted no.

Mayor Ellenstein: Mr. Hardin having received but one vote is declared not elected.

Are there any other presentations?

I will present the name of a professional man, a man who ranks high in the medical profession, of Italian extraction, Dr. Ames Filippone. As many as are in favor of Dr. Filippone being chosen to fill the vacancy will signify by saying aye; contrary no; the Clerk will call the roll.

On roll call: Commissioner Franklin and Mayor Ellenstein voted aye; Commissioners Byrne and Murphy voted no.

Mayor Ellenstein: Dr. Filippone having received but two votes is declared not elected.

Are there any other presentations?

I will present the name of a man who has given excellent service to the City of Newark on the Board of Education, a man of enviable reputation and of fine character. I present the name of Frank Cozzoline. As many as are in favor of Mr. Cozzoline being chosen to fill the vacancy will signify by saying aye, contrary no; the Clerk will call the roll.

On roll call: Commissioner Franklin and Mayor Ellenstein voted aye; Commissioners Byrne and Murphy voted no.

Mayor Ellenstein: Mr. Cozzoline having received but two votes is declared not elected.

Are there any other presentations?

Evidently the second installment of the 1937 City Commission has not done any better than the first installment in the selection of a fifth commissioner.

Are there any other presentations?

What is the disposition of the Commission?

Commissioner Franklin: Do you want to adjourn this meeting—

Mayor Ellenstein: Yes.

Commissioner Murphy: To five o'clock.

Mayor Ellenstein: Yes, in order to approve the budget and I understand Director Murphy has not had very much time preparing it, so several of the men in Director Murphy's Department are preparing the budget for approval today. It will be necessary to recess until five o'clock.

Commissioner Murphy: I understand this will wind up the regular City Commission business and then it will be solely on the approval of the budget.

Mayor Ellenstein: Yes.

Commissioner Franklin: I move, then, that we recess to five o'clock.

Commissioner Murphy: I second the motion.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners B y r n e, Franklin, Murphy, Mayor Ellenstein.

(At this time a recess was taken to five P. M.)

(At 5:35 P. M. Deputy City Clerk Bross called the roll, and the members of the Board of City Commissioners not being present declared the meeting adjourned.)

The ordinance having been read three times was then declared to be upon its third and final passage.

The roll being called, the ordinance was declared adopted by the following votes:

Yeas: Commissioners B y r n e, Franklin, Murphy, Mayor Ellenstein.

The City Clerk presented the following ordinance and stated that today was the time fixed for a further hearing, this being the adjourned date for same.

The Clerk then read the ordinance at length:

An Ordinance authorizing the issuance of \$1,175,000 Poor Relief Bonds of The City of Newark.

ance of \$1,175,000 Poor Relief Bonds of The City of Newark.

The Board of Commissioners of the City of Newark, Do Ordain, as follows:

Section 1. The Board of Commissioners has ascertained and hereby determines that it is necessary that the City of Newark raise the sum of \$1,175,000 for the relief of the poor, including direct relief, expense of administration, the payment of any indebtedness heretofore or hereafter incurred for the relief of the poor, and the cost of the issuance of the bonds hereinafter described.

Section 2. For the purpose of raising said sum, there shall be issued pursuant to Chapter 332 of the Laws of 1939 of New Jersey, as amended by Chapter 395 of the Laws of 1939 of New Jersey, bonds of The City of Newark of the aggregate principal amount of \$1,175,000 to be designated "Poor Relief Bonds of 1940."

Section 3. Said bonds shall bear interest at a rate which shall not exceed six per centum (6%) per annum, payable semi-annually, and shall be dated March 1, 1940.

Section 4. Said bonds shall be payable in annual installments as follows, viz.: \$235,000 of bonds on March 1st each of the years 1941 to 1945, inclusive.

Section 5. Said bonds shall be general obligations of said City and a tax sufficient in amount to pay the principal of and the interest on said bonds shall be levied and collected by said City in the year in which the same shall become due and payable. Each of said bonds shall contain a recital that it is issued pursuant to said Act in the manner or mode of procedure prescribed by the Local Bond Law of New Jersey.

Section 6 The bonds which are to be issued pursuant to this ordinance shall be issued in lieu of and not in addition to the bonds authorized by the ordinance entitled "An Ordinance authorizing the issuance of \$1,175,000 Poor Relief Bonds of the City of Newark," adopted by the Board of Commissioners on the 13th day of September, 1939, and said ordinance adopted on the 13th day of September, 1939, is hereby rescinded.

Section 7. This ordinance shall take effect at the time and in the manner provided by law.

The Board then entered upon said hearing.

Mayor Ellenstein: Does any citizen desire to be heard on this ordinance?

Commissioner Byrne: I just asked Director Murphy would a week's delay on this ordinance jeopardize the rate.

Commissioner Murphy: We will, from what I can see, by not having the funds on hand, which is necessary under Commissioner Darby's ruling. And it takes twenty days. Then again, it is going to bring us right up to the deadline.

Commissioner Franklin: You are talking about this revolving fund?

Commissioner Byrne: What would happen if a week's delay—what affect would this have on the tax rate, one week's delay?

Commissioner Murphy: It affects the tax rate about 19 points.

Commissioner Byrne: If it did not go through this week would it affect the tax rate 19 points?

Commissioner Murphy: Sure.

Commissioner Byrne: Definitely?

Commissioner Murphy: That is the way I see it, it means 19 points.

Commissioner Franklin: Director Byrne, you seem to fear this money might have to be used in the course of the year as was the \$700,000.

Commissioner Byrne: That is right.

Commissioner Franklin: The reason that \$700,000 had to be used last year was, we spent \$6,000,000 in direct relief beyond our expectation. This year the anticipated amount is far below that. \$4,800,000, a reduction of \$1,200,000. So even though your relief rolls go up somewhat, there is very little likelihood that it will absorb the \$1,200,000 that we expect to reduce it by this year.

Commissioner Byrne: I understand that; but what I am trying to find out at the moment is, if there were a week's delay on this, does it definitely mean that that one week's delay, that by that 19 points would be added to the rate? Does it have to be done today?

Commissioner Franklin: Apparently so, from what Director Murphy says Darby says.

Commissioner Murphy: Of course, it was delayed last week. But it appears to me as though next week is going to be too late for me; I am afraid we are going to be late.

(Discussion between Commissioners Murphy and Byrne out of hearing of the stenographer).

Mayor Ellenstein: Is there any person who desires to be heard on this ordinance?

Commissioner Byrne: I would like to be heard before I vote. I am only doing it to give the taxpayers in 1940 a break. Otherwise, I think it is wrong.

There being no one else to be heard, Commissioner Murphy moved that the public hearing be closed.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners B y r n e, Franklin, Murphy, Mayor Ellenstein.

Commissioner Murphy moved that the ordinance be taken up on second reading.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners B y r n e,
Franklin, Murphy, Mayor Ellenstein.

Commissioner Franklin moved that March 20, 1940, at 11 A. M., Stand-ard Time, or as soon thereafter as said matter can be reached, and the Board's meeting room, second floor, City Hall, Newark, N. J., be fixed as the time and place when and where said ordinance will be further considered for final passage, and that the City Clerk be and he is hereby directed to publish said ordinance and give public notice of its introduction and passage on first reading as provided by law.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners B y r n e,
Franklin, Murphy, Mayor Ellenstein.

The City Clerk presented An Ordinance to amend an ordinance entitled: "An Ordinance to amend Section 4, of an ordinance entitled 'An Ordinance regulating the sale and distribution of milk, cream and milk products, in the City of Newark,' adopted July 1, 1931," adopted September 14, 1938, and stated that to-day was the time fixed for a further hearing, this being the adjourned date for same.

The Board then entered upon said hearing.

Mr. C. Wallace Vail, 60 Park Place:

Gentlemen, I am here today representing the Milk Processors Association of Northern New Jersey, and we oppose the passage of this ordinance on the ground that it unfairly discriminates against the small dealer. As the thing is set up, the large dealer can get a license and have as many wagons under that as he wants. The small dealer can get a license and because he is economically limited to one wagon he can't put on any more.

Of course, the answer to that may be that he has the same right to expand. That is true. But, on the other hand, we all know as a practical matter that he cannot do that, and for that reason it is an unfair thing to limit these licenses in an arbitrary manner to 1,500.

Commissioner Franklin: To what number?

Mr. Vail: One license for each 1,500 of population. I don't know just exactly how many licenses that will be.

Mayor Ellenstein: About 300 licenses.

Mr. Vail: I don't know whether there are 300 now but I understand that there is approximately that number, but whether or not there are any licenses that can be issued under this ordinance is of no moment because the limitation put on that number is an arbitrary one, and I respectfully bring the Commission's attention to this case which was decided by the Supreme Court, and that is *Sheffield vs. Seaman*, which you are probably familiar with. It had to do with the issue of licenses by the City of Perth Amboy, and the court there said that they could not arbitrarily refuse to issue a license if the person making application for one had complied with all the regulations, and the court said:

"A reason for refusal to grant

a permit to sell milk within a city that it had enough milk dealers, and that the city had the situation 'well in hand,' is unreasonable, arbitrary, capricious and discriminatory, and unlawfully curtails the applicant's common law right to engage in the business, notwithstanding full compliance with state and city requirements."

Now, this ordinance falls squarely within this decision, saying that it has enough milk dealers, and that could be the only reason for limiting the licenses as prescribed by the ordinance.

Now, without going into some of the other provisions of the ordinance, I think that that provision alone is sufficient to bring it within the Fourteenth Amendment of the Constitution, which affords every person equal protection and the full right to engage in any business that is proper at common law, and conducted on an equal basis with everybody else.

I would like the Commission to consider whether or not this ordinance can possibly be upheld if it is passed, and I respectfully submit that this *Seaman* case is dispositive of the Constitutionality of the thing, and it should not be passed.

Mayor Ellenstein: In view of that it might be well to refer the ordinance back to the Law Department.

Commissioner Franklin: Mr. Blank handled this ordinance. We have attempted, through the medium of an ordinance for the past four or five years, to regulate this licensing of retail dealers to a reasonable use. The thing that we really want to guard against is an unreasonable use of the permit in the hands of the prospective owner. As the situation stands now—and I don't know whether you are talking against this or not—

Mr. Vail: I couldn't tell you that.

Commissioner Franklin: But John Jones comes along and he asks for a permit. He has to have customers so he goes out, and you are the little independent dealer; you have three or four hundred quarts of milk in your own little business, and through the friendship with this or that one he goes out and steals half or one-third of your customers, and the next fellow comes along and he will steal some more of your customers so it gets to the point where no one is doing any volume of business so as to give him an income to properly sustain himself, and then he begins to get into violation, and if he cannot run his route because he has not sufficient volume of business then he begins to create violations, which is quite the normal and human thing to do, and it has been a process that we have gone through in adopting these various ordinances and trying to regulate it so that under some rule of law we are able to fix the number of persons who have licenses, and that is the reason for attempting now to limit it according to the population, because if we have three hundred, and that three hundred is the number that normally can supply the City of Newark, why have six hundred, when six hundred will only ruin the business, from an economic standpoint, and create violation from a health standpoint.

Now, Mr. Blank, from the standpoint of the constitutionality of this ordinance, I think probably can say something about it.

Assistant Corporation Counsel Blank: This matter before the Commission today is merely an amendment to the existing ordinance. As to whether or not the existing Ordinance is constitutional is a question for the court to decide, and that is a question that has been brought up several times before the Supreme Court and several times the Supreme Court has decided that issue in respect to mat-

ters pertaining to the City of Newark.

This amendment merely limits the number of licenses to one for every 1,500 population.

As to whether or not the City has a right to do that is to be construed not merely alone but in the light of the general subject matter. Of course, I am familiar with the Sheffield case and the Sheffield case does touch the subject, but Mr. Vail's statement is in connection with the constitutionality of the entire ordinance. If this amendment were to fail the ordinance would still be in existence and the Board of Health would still operate it, and the only way to test the constitutionality is to take the matter to the court, but the matter before the Commission today is one of amendment. If this amendment is to be defeated the ordinance is still in existence, and if there is any defect there is nothing that can be done at the present time. If there is any defect in the constitutionality it is a matter of the entire ordinance, and the Commission can revoke the entire ordinance, but the amendment has nothing to do with the constitutionality, and the Sheffield case has not touched the number of licenses except as to arbitrarily turning down the number of applicants. The court felt that there should be some step, some method so that the distribution of licenses could be regulated, so I say this, if this amendment were to be defeated the question of the constitutionality of the entire ordinance would not be solved by defeating this ordinance.

Mayor Ellenstein: Is the 1500 figure fixed in the present ordinance?

Mr. Blank: I don't believe there is any limitation in the existing ordinance. The existing ordinance may be an unconstitutional one.

Commissioner Franklin: The exist-

ing ordinance does not fix the number?

Mayor Ellenstein: You are objecting to this feature?

Mr. Vail: I am objecting to that feature, and then, there are some other features here, and that is, a person to whom a license has been issued, if he does not like Bill Smith from whom he buys the milk, he can't buy from anyone else under this ordinance, unless he first get written permission from this Commission. Now that is another capricious regulation.

Commissioner Murphy: Under the new amendment?

Mayor Ellenstein: He says that a person who buys from a certain source cannot change the source without getting the consent of this Commission. Did I understand you to say that?

Mr. Vail: That is my understanding of the ordinance.

Mr. Blank: That is not true. That is not the subject matter of the amendment.

Mr. Vail: I have the ordinance here. It is a very fine print. It may be a little difficult for me to find it but I think I can find it. It is Sub-division 3, Section 8, I believe.

Mayor Ellenstein: What objection is there to Mr. Vail meeting with you and having him go over the cases with you and see if you cannot come to some common ground on some of the features that are objectionable?

Mr. Vail: I will be very pleased to do it.

Mayor Ellenstein: There is no hurry about this ordinance. It can wait another week, and I think you can go down and show Mr. Blank all of your legal authority on the various points.

If it is in the ordinance I agree with you that is a capricious regulation.

Mr. Blank: That is not the subject matter of the amendment.

Mayor Ellenstein: Is that in the original ordinance? If it is in the original ordinance it ought to be taken out.

Mr. Vail: Mr. Mayor, it may not be the subject of this case but it is in here.

Mayor Ellenstein: Suppose you take it up with Mr. Blank during the course of the week and in the meantime a motion to defer consideration of the ordinance for one week will be in order.

Commissioner Franklin: I move that action on this ordinance be deferred for one week.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners B y r n e, Franklin, Murphy, Mayor Ellenstein.

Mayor Ellenstein: If you cannot get together with Mr. Blank and get in accord on all these provisions that you speak of, then you return next week.

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application?

Commissioner Byrne: I move we concur in the recommendation of the Board of Adjustment.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners B y r n e, Franklin, Murphy, Mayor Ellenstein.

Commissioner Murphy: I want to present the budget so that the members of the Commission can be on record in the regular meeting, for those that want to sign and those that don't.

Mr. Byrne: Are you going to sign the budget?

Commissioner Byrne: I have already voted on it.

Commissioner Murphy: It has been in conference. As a matter of record in the meeting, the budget is presented.

Mayor Ellenstein: I will present an amended budget with \$25,000 to be added to the Airport, to purchase the Standard Oil Company hangar, so that the City can use the Administration Building for the next ten years, and then, during the course of the day—or it can be added now—we can call your auditor up here now and add that to the Airport budget, and on the final adoption the City Commission can do as it feels about it. However, it ought to be passed upon by the State Auditor, Mr. Darby.

Commissioner Murphy: The City Commission can increase the budget or decrease the budget at any time between now and the final adoption of the budget.

Mayor Ellenstein: If the Law Department will report the budget all right.

Commissioner Murphy: All that is necessary is to advertise.

Mayor Ellenstein: I am not as familiar with the law as you are so I will have to get an opinion from the Law Department.

Mayor Ellenstein: There is no bud-

getary item for that particular item, \$25,000. Can that be added without re-advertising?

Asst. Corporation Counsel Kane: No item of more than one per cent. of the appropriation.

Mayor Ellenstein: Is that the amount?

Mr. Kane: Yes.

Mayor Ellenstein: It is more than one per cent., because the Airport budget is \$200,000.

Commissioner Murphy: That is not advertising the whole budget?

Mr. Kane: The total budget appropriation, one per cent. of the total budget. Any item budgeted up or down ten per cent. or any amount that is to be raised by taxation in excess of five per cent. The first feature applies to a new item of not more than one per cent., total appropriation.

Commissioner Franklin: Of the department?

Mayor Ellenstein: Of the department or the budget?

Mr. Kane: No, of the budget. I will re-check that, for you, if you want me to.

Mayor Ellenstein: Yes, I want it re-checked. You understand, Mr. Kane, it is a new item.

Mr. Kane: I am sure that is it. I will go inside and re-check that.

Commissioner Murphy offered the following resolutions:

Vincent J. Murphy.

Commissioner Murphy: I move for its adoption.

On roll call: Commissioners Byrne and Murphy voted aye; Commissioner Franklin and Mayor Ellenstein voted no.

Mayor Ellenstein: The resolution having received but two votes is declared not carried.

Asst. Corporation Counsel Kane: Referring to the item that we were talking about before, it is a new item and the only question in this case is whether or not it is a new item or whether the State Local Government Board Commissioner will say it is an item of Airport expense. If he does, it cannot be increased or decreased more than ten per cent. on the final budget without re-advertising of the item.

Commissioner Murphy: Just that item? Then the total amount of the budget, we are safe in that respect. It is \$54,000.000.

Mayor Ellenstein: Can't that be added after advertising, without re-advertising?

Corporation Counsel O'Brien: No.

Mayor Ellenstein: That is a question. Why not put the \$25,000 in and then the Commission can determine on its adoption. You re-advertise and have a re-hearing and we delay the passage of the budget.

Commissioner Murphy: No, it won't delay the passage of the budget. We can decide between now and the time of the adoption of the budget on half a dozen different changes, if necessary.

Corporation Counsel O'Brien: I think the Local Government Board will say it is not a new item. Actual-

ly what you are doing—it is a new item, in other words, an item that is not presently provided in the budget, and what you are actually doing is buying off a lease in order to get a desirable tenant at the Airport.

Commissioner Murphy: Which you still can do and give what the Mayor has said, an opportunity to everybody—

Mayor Ellenstein: If there is any question of doubt why not put the \$25,000 in now and then on adoption take it out?

Corporation Counsel O'Brien: Of course, you have to readvertise either way and if you do not or will not take it out, then put it in and—

Mayor Ellenstein: There is no commitment until the budget is finally adopted, and all you have to do is add a pencil figure of \$25,000. That is why I wanted the auditor up to do that.

What do you want to do? There is no sense of looking at each other.

Commissioner Murphy: My position is just the same. I think we can include it, if necessary.

Mayor Ellenstein: The Law Department is giving us the report. Of course, you will say that the Law Department does not coincide with your view, but they have given us the report. I am making a recommendation. I take recommendations of yours.

Commissioner Murphy: Very few.

Mayor Ellenstein: Even to the extent of increasing the salaries of one-third of your employees because I have some faith and confidence in you and I am willing to approve the budget now. If you cannot take my recommendation, where it is so logical that a child would understand

that we do not buy this hangar and there is no commitment that we should buy it. in the budget, and that we won't be able to use the Administration Building which was erected at a cost of \$700,000, and we won't be able to get any revenue from it. You won't accept that recommendation.

You are doing it for spite, and if you want to know why you are doing so, I think you are doing it because I wouldn't vote for the acceptance of the \$160,000 on the General Leather matter.

Commissioner Murphy: Ridiculous, ridiculous, ridiculous. This was an issue long before that, as far as that part is concerned.

Mayor Ellenstein: No, it was only after I said I would not vote for that unless I could be shown that the market value of the property is not more than \$160,000, and now you take that position.

Commissioner Murphy: I think I have been more than fair with you on this Commission, for the kicking around that I have taken off you for the last three years, and I have voted for stuff that I thought was for the best interests of the city, and that you proposed, that I thought was for the best interests of the city. I voted for them and I was never swayed by any action that you had taken against me. That holds good in this case. Why don't you present the facts as they should be presented. Why do you say that I will not put that \$25,000 item in the budget? Why don't you show that this company has made the proposal to this city?

That \$25,000, since the action of the court you have been doing that and you can do that, give us an opportunity to look at the place, but you want to have your way. You are the one who is arbitrary about the whole thing.

Mayor Ellenstein: I am not arbitrary. You are.

Commissioner Murphy: I don't know whether I am or not, but I am objecting to that point.

Mayor Ellenstein. You didn't think that was a kicking around when you bring in a resolution to reduce the assessment by \$500,000, tax dollars, and I refused to go along on that. Is that kicking you around or is that serving the interest of the City of Newark?

Commissioner Murphy: Did I mention the telephone situation?

Mayor Ellenstein: Of course, you did. You call that kicking around. You are willing to go along with this \$110,000 reduction. I am not kicking you around when I refuse to vote for it. That is not kicking you around, is it?

So far as the other is concerned, I know and you know of the offer that we have had, approved by the engineer, to obtain the building for \$25,000, that we have to have the building if we are going to use the Administration Building; that the courts have decided that they could have a lease for ten years which will prevent us from using the Administration Building and prevent us from renting it and prevent the transport companies from going in there as one central station. The Standard Oil Company says either they want a ten year lease or \$25,000 from the City.

Commissioner Murphy: Have they said that?

Mayor Ellenstein: Yes.

Commissioner Murphy: Where is it?

Mayor Ellenstein: I am telling you it. Won't you accept my word for it. I am making it as a public record.

Commissioner Murphy: Don't you think that we are entitled to an opportunity for you to present all these things to this Commission, to the members of this Commission, because as you said two days ago during all these budget hearings and everything else, that we are supposed to go down. Are we supposed to go down and break our necks to satisfy what you have in mind?

Mayor Ellenstein: Nobody told you to break your neck. You told me when we met on Monday morning that you would go down by tomorrow, which was Tuesday, yesterday.

Commissioner Murphy: Wait a minute. You never heard anything like that at all.

Mayor Ellenstein: Will you let me talk.

Commissioner Murphy: I am going to correct that.

Mayor Ellenstein: You said on Monday morning, in the presence of many people, that you are going to look it over and you said that you didn't have an opportunity the next day. You told us that. I am not quarrelling with you.

Commissioner Murphy: Because I didn't get out of here until eight o'clock last night.

Mayor Ellenstein: An opportunity has been given you and I don't ask you or anybody else to break their necks to go down there. It only takes five minutes to go down to the Airport and only five minutes to look at it.

Corporation Counsel O'Brien: Putting it in the budget does not constitute anything.

Commissioner Murphy: Why all the argument for wanting to put it in there if you can get it in in another way. Everything is calculated. You

don't have to do this work. It is all right for you people.

Mayor Ellenstein: You look at the budget figures that have been crossed off in pencil and then you say it will only take half a minute.

Commissioner Murphy: I am not going to be beaten into it.

Mayor Ellenstein: You mean that you want to be obstinate?

Commissioner Murphy: I am not going to allow you to club me into it.

Mayor Ellenstein: Why do you say that? I came in Monday with recommendations and asked you and Director Byrne and Director Franklin to look at the building to see if it is in the way of using the Administration Building. I told you to do that on Monday.

Commissioner Murphy: When did you want me to do that? To look at it at midnight?

Mayor Ellenstein: You could go down the next morning to look at it. You had two days to go down there, and that is not clubbing you into it. You promised to go down and look at it.

Commissioner Murphy: And I will gladly. The item can be included in the budget.

Mayor Ellenstein: We will now go into the selection of candidates to fill the vacancy on the City Commission.

Commissioner Murphy: As a matter of record, Mr. Stenographer, have you got the vote?

The Stenographer: No.

Commissioner Murphy: A record of the vote should be made and the budget has to be presented to Mr. Darby, and up to the present time the City Clerk has one signature, Finance Director Murphy.

Mayor Ellenstein: I think Director Franklin voted for it. I will be recorded as not voting for it. In the meantime we are submitting a modified budget and we will call a meeting for tomorrow.

Commissioner Franklin: Call a meeting for tomorrow what?

Mayor Ellenstein: For approval of the budget.

Commissioner Murphy: You won't have me here tomorrow. You can tell the world that.

Mayor Ellenstein: That is your business. I am not going to be a wet nurse to you.

Commissioner Murphy: I won't be any to you, either. I am at the demand of you and the rest of the Commissioners practically every day in the week in the department around here that has been handling a mess in taxes.

Commissioner Byrne: I vote no.

Commissioner Murphy: Because I have guts enough to go in and try to clean up a situation you get a booting around, just from political angles, political reasons.

Mayor Ellenstein: If I were to begin to suggest to you what to do in the Tax Department it would amaze you.

Commissioner Murphy: You had a lot of opportunities before I was here to suggest, and you did nothing.

Mayor Ellenstein: You are saying about all these things that you would do and all that does not help the situation. If you had started the foreclosures as I practically coaxed you to do at the beginning of last year you would have had a seventy-five or one hundred point reduction.

Commissioner Murphy: That is true, if you people had kept your hands off me.

Mayor Ellenstein: You knew that man owed taxes on the General Leather Building for the last ten years. Why didn't you tie him up?

Commissioner Murphy: That has been here nine years. You have been here before me. Why didn't you do something before me?

Mayor Ellenstein: Do you want me to go down and run the Revenue Department?

Commissioner Murphy: I have been pushing it before the Commission. That is more than you did. You had control of the Tax Board.

Mayor Ellenstein: This man owed \$100,000 in taxes three years ago. Why didn't you go after him to see that he paid it?

Commissioner Murphy: In fact, I didn't have the Tax Board for pretty near a year. You still controlled it after I got it.

Mayor Ellenstein: And after you got it the first thing you did was to reduce the Telephone Company \$500,000.

Commissioner Murphy: That is a question.

Mayor Ellenstein: That is a question? I have the proof and you can't deny it.

Commissioner Murphy: You go into the facts of it.

Mayor Ellenstein: After the Supreme Court said that they were to pay it you and Mr. Puder arranged to have a resolution brought up which you would deprive the taxpayers of \$500,000 tax dollars, not in assessments; you can't deny that.

Commissioner Murphy: I do deny it.

Mayor Ellenstein: Don't deny it.

Commissioner Murphy: Don't deny anything.

Mayor Ellenstein: I can prove it to you. I will get the folder now. Do you want me to do it?

Commissioner Murphy: Don't waste your time.

Mayor Ellenstein. Of course, that is right, you don't want me to waste my time. I will show you everything that was said at the Tax Board and show you that the Supreme Court decided that they should pay the assessment and still you introduced a resolution that would reduce that by \$500,000.

That is a fact, that is the first thing you did and inaugurated after having the Tax Board under your supervision.

Commissioner Murphy: This is not so. I adopted a policy of an open door to every taxpayer in the City of Newark.

Mayor Ellenstein: Having an open door is one thing and reducing the telephone company assessment by \$500,000 is another. Do you deny that the Supreme Court decided that they should pay that \$500,000. Do you deny that?

Commissioner Murphy: That it decided what?

Mayor Ellenstein: That the County Board of Taxation, the State Board of Taxation and the Supreme Court decided that it was a proper assessment. Do you deny that?

Commissioner Murphy: Yes, that it was a proper assessment. They said the assessed valuation was correct.

Mayor Ellenstein: That is right, and that amounted to over \$500,000. Is that so? Still you introduced a resolution here advocating reducing it by \$500,000. That buys a lot of loaves of bread for people who are on relief.

Commissioner Murphy: That is more political stuff. You go into the books and see how it has been reduced, how the department under your supervision reduced from \$25,000,000 to \$17,000,000.

Mayor Ellenstein: Justifying what?

Commissioner Murphy: Justifying reductions by the Tax Board before I even had anything to do with it.

Mayor Ellenstein: Did I have charge of the Tax Board?

Commissioner Murphy: You had charge of this Commission when they came in.

Mayor Ellenstein: I had no more charge of the Tax Board than Director Byrne. You had a candidate on there and I did and—

Commissioner Murphy: I didn't have any.

Mayor Ellenstein: We agreed that the Tax Board was to be free from the influence of any one Commissioner and then everybody would get a fair break, instead of it being dominated by one man.

Commissioner Murphy: They are not dominated by me.

Mayor Ellenstein: Except that you and your deputy went in before the Tax Board and urged them to cut it down \$500,000.

Commissioner Murphy: I took the recommendation of the counsel that you paid \$25,000 to, to represent the City, and I took his recommendation

with the recommendations of the Law Department.

Mayor Ellenstein: You didn't take his recommendation, I will show you the letters he sent you.

Commissioner Murphy: You don't have to show me. I know all about it. It is in the file. You are only hashing this thing over as the regular confusion stuff you always pull.

Mayor Ellenstein: You started with the statement that I am kicking you around. I am not kicking you around or anybody else around. You call it kicking around because I won't go along on things that you think I ought to. I won't go along on a reduction of \$500,000 for the telephone company; I won't go along on the reduction of \$110,000 on the General Leather place, this man who came in. You could have collected his taxes. You have been here three years. I won't go along on the reduction of the Newark News, \$400,000. That is in your department. If I had charge of that department like you have the Newark News would not get a \$400,000 reduction. I suppose I will get an editorial for this. It does not concern me a bit whether or not the Newark News is against me from now until my last day. The Newark News got a \$400,000 reduction, 33 1-3 per cent. off their personal taxes, and there has never been a taxpayer who can go before the Tax Board unless they filed an affidavit and made a return, that could even get a ten per cent. reduction, but the Newark News got a 33 1-3 per cent reduction by just merely writing a letter, and the letter said that because they have such a large paper that the market for their machinery and printing presses is limited.

According to that notion if a man owned machines that made a patented article, that would have no value on the market for junk, so he would not be taxed on it, but that is not the

law. The law is that the ratables should have the market value of a willing seller and a willing buyer.

You would go in before the Tax Board right now and say, "Gentlemen, you reduced the Newark News \$400,000 and if the Newark News wants a reduction they should have filed an affidavit and return before the County Tax Board like every other taxpayer," but, you see, I get editorials and you don't.

That is a fact, and you can't deny it.

Commissioner Murphy: I do deny it. That is not a fact. Don't confuse things again. That is not a fact. When you said that every taxpayer has to come in and make an affidavit that is not so. Hundreds of taxpayers in the City of Newark come down, not even with a letter; they come down themselves, whether they get a letter or not and that is our open door policy as far as I am concerned and it will continue, and nobody has to make an affidavit if there is a question in their minds about the assessment on their property.

Mayor Ellenstein: What you are trying to tell me now is that you can make a \$400,000 reduction merely by appearing and without making an affidavit?

Commissioner Murphy: Any taxpayer can come in—

Mayor Ellenstein: And get a \$400,000 reduction?

Commissioner Murphy: They can come in.

Mayor Ellenstein: Let us not be too general. Let us be specific. I am asking you if you know of any taxpayer that can get a \$100,000 reduction or a \$50,000 reduction without making any return or without appear-

ing. The Newark News is fearful of appearing because, to my mind, what I have learned, they will stand a \$2,000,000 assessment, and they cannot go before the County Board and put any of their executives under oath and therefore they did not appeal. I don't think the Newark News is so soft as to pay \$20,000 for nothing. That is what a \$400,000 reduction amounts to, \$20,000 a year, if they are going to benefit one person, because it might benefit you or benefit your position, as against the other taxpayer. I say it is unfair.

Commissioner Murphy: I say it is unfair if that is being done, but to the best of my knowledge and ability it is not being done, and even your own man voted for the reduction on the Board, with the others.

Mayor Ellenstein: That is not true.

Commissioner Murphy: To my knowledge it is.

Mayor Ellenstein: My man, whose soul may rest in peace, wasn't there at that meeting. He wasn't there at that meeting and it was put over at the meeting when he wasn't there.

Commissioner Murphy: I don't mind telling you that as far as my knowledge is concerned there was nothing put over.

Mayor Ellenstein: The Newark News for three years paid \$1,200,000 on their personal property tax and they did not appeal, and they did not appeal until they were able to get a reduction of \$400,000. Show me any taxpayer who ever got a reduction of \$400,000 without appealing.

I say again, if you are a good collector or tax man you ought to go down to the Tax Board and say, "Here, gentlemen, you put that assessment down \$400,000. If the Newark News feels it is too high they can appeal."

Commissioner Murphy: I don't mind telling you that the taxpayers of the City of Newark, in order to establish the values at somewhat near present day values, are getting a reduction of practically \$90,000,000. Isn't that a fact?

Mayor Ellenstein: What has that got to do with it?

Commissioner Murphy: It has got a lot to do with it. We are trying to establish fair values.

Mayor Ellenstein: You are trying to confuse the issues.

Commissioner Murphy: And you are trying to harp on what you want. Maybe you want to run it.

Mayor Ellenstein: Maybe sometime I will. I only look at the things that have come to my attention.

Commissioner Murphy: I am going to run my department and you can run something else.

Mayor Ellenstein: I have learned things at long range. I have learned that special interests come down and get favors.

Commissioner Murphy: I don't believe it.

Mayor Ellenstein: There is the telephone company and there is the Newark News. What more proof do you want?

I can understand how an industry should be given a break, but the telephone company is a monopoly and if they don't make enough money they go to the Public Utilities Commission and their rates are increased. They don't have to discharge any employees. It means that the stockholders will get a little less money on their investment. I am not so much interested in a man who can afford to hold stock in the telephone com-

pany. I am interested in the rank and file. I believe that you should treat all taxpayers alike. I believe if the Newark News can get a \$400,000 reduction by merely writing a letter, then John Smith or Jim Jones can do the same thing, but should John Smith or Jim Jones write a letter he wouldn't get two cents reduction.

Commissioner Murphy: I don't mind telling you that you can go as far as you like, and, as I said before, you have the Prosecutor to go to if you don't think I am doing a job on the—

Mayor Ellenstein: I am not the Prosecutor.

Commissioner Murphy: And I can stand up there and stand up before you as I do with the rest of the people.

Mayor Ellenstein: It is not my function or desire to do that. Don't tell me that I am kicking you around because I don't vote in accord with your views.

Commissioner Murphy: I am not going to stand for you kicking me around.

Mayor Ellenstein: I am not kicking you around.

Commissioner Murphy: If you don't vote that is all right.

Mayor Ellenstein: I will call a meeting for tomorrow and present an amended budget, including \$25,000 for the Airport.

Commissioner Franklin: Are you going to be there, Director Murphy?

Commissioner Murphy: Not me.

Commissioner Franklin: I have got to be away for a few days and that is why I waited for this thing to come up. If I don't get away I may not be able to be at a budget meeting

or the next meeting. If my signature goes on there and Director Murphy will be here, it is O. K. with me.

Commissioner Murphy: I will tell you right now that I would not vote for the amended budget even if I were here tomorrow.

Mayor Ellenstein: You object to putting the \$25,000 on the budget?

Commissioner Murphy: That is right.

Mayor Ellenstein: Even on the adoption?

Commissioner Murphy: No. When the adoption comes up that is a different angle but we are not now on the adoption. That is a different angle and I think that you ought to be fair enough about it. We still have time between now and the adoption to include this.

Mayor Ellenstein: What is the objection? Why not be a little reasonable?

Commissioner Murphy: Why should I give in to the Law Department?

Mayor Ellenstein: If it is a question of giving in, all right, I will sign it on that basis.

Commissioner Murphy: You are always the guy that is being a martyr.

Mayor Ellenstein: I am trying to save time and money in order to avoid unnecessary expense, and if you think it is obstinacy on my part—

Commissioner Murphy: It has been.

Mayor Ellenstein: It cannot be, when I am signing it.

Commissioner Murphy: Not now.

Mayor Ellenstein: Then you are more obstinate than I am and you will have to admit that.

Commissioner Murphy: Right; so you will let me alone now.

Mayor Ellenstein: At least for the present you are more obstinate than I am. Don't think that I am vindictive and that I hold anything against you.

If there is no objection, we will refer back to resolutions.

Commissioner Murphy offered the following resolutions:

BE IT RESOLVED, by the Board of Commissioners of The City of Newark that the Commissioner of Local Government is hereby requested to give his consent to the placing of the following items in the Budget of the City of Newark, for the year 1940:

The roll being called, the resolution was declared adopted by the following votes:

Yeas: Commissioners Murphy,

Mayor Ellenstein: All in favor of the resolution as read by the Clerk will signify by saying aye, contrary no, and the Clerk will call the roll.

On roll call: Commissioner Byrne voted no; Commissioners Franklin, Murphy and Mayor Ellenstein voted aye.

Commissioner Murphy: Director Byrne voted no. Is that predicated on the fact that you may change the budget?

Commissioner Byrne: No, all the way through.

LOCAL BUDGET EXPLANATORY STATEMENT

The 1940 Budget estimate requires that \$36,343,299.61 be raised by taxation as compared with \$37,713,651.92 for the preceding year as shown in the following tabulation:

	1940	1939
Total Budget Appropriations	\$48,328,234.03	\$44,101,815.15
Total Anticipated Revenues	17,945,236.40	14,764,342.59
Excess of Appropriations and Revenue	\$30,382,997.63	\$29,337,472.56
Reserve for Uncollected Taxes	5,960,300.98	8,376,208.59
Amount to be Raised by Taxation	\$36,343,298.61	\$37,713,681.15

Our Miscellaneous Revenue anticipations for 1940 include \$3,164,890.97 for gross receipts and franchise taxes, in accordance with statutory provisions.

Our Special Revenues include an estimated proceeds from bonds for Poor Relief totalling \$1,175,000.00 and various surplus accounts totalling \$465,835.00.

The decrease in anticipations from delinquent taxes this year is partly the result of a reduction in the amount of outstanding delinquent taxes and partly the result of a decrease in the personal property tax collection percentage, offset to some extent by an increase in the real estate delinquent tax collection percentage.

The net collection percentage for current taxes was increased to 83.6% in 1939 from 77.8% in 1938. The improved collection percentage is responsible for the decrease of \$2,415,907.61 in the Reserve for Uncollected Taxes.

The 1940 budgetary appropriations of the five City Departments are \$405,214.26 greater than in 1939 after eliminating the direct relief appropriations.

The mandatory appropriation for Debt Service requires an increase this year of \$114,882.38. The Local School requirement has been increased \$475,000.00.

The Budget, as calculated, shows a 54-point increase in tax rate, by reason of the estimated drop in ratables of \$90,000,000.00 due to equalization and revaluation program.

Should the drop in ratables, as finally determined, be less than the estimated \$90,000,000.00, each \$1,666,666-change in this estimate will reduce the tax rate 1 point.

The increase in the tax points due to this project will, in the majority of cases, be offset by the decrease in ratables.

Mr. Herman W. Brams, 1060 Broad Street: On the resolution covering the adoption of the budget I understand from Commissioner Murphy, since I gave my name to the Clerk, that it is tentative and that many matters are going to be taken up with Commissioner Darby, and the Newark Taxpayers Association would then have an opportunity to be heard.

It occurred to me that it might be a good idea while Commissioner Murphy is in Trenton to look into the question of the soldiers' bonus. Last year we included the sum of \$174,000 on the soldiers' bonus. I understand from former Governor Hoffman that it may be possible that legislation may be introduced next Monday to void that item, and it might be a good idea for this Commission to ask the legislators from Essex County to have such a bill introduced, because the sinking fund has a sufficient fund to take care of that item. If we can save \$170,000 in this year's budget it might be desirable for this Commission to take some action on it.

Mayor Ellenstein: The State Treasurer, as I understand from the papers this morning, said that it could not be done. He is a member of the Sinking Fund Commission.

Mr. Brams: Yes, I heard about it, but there seems to be some question, and it might be a good idea to ask the county legislative group to sponsor a credit, anyway.

Mayor Ellenstein: Suppose you look into the suggestion made by Mr. Brams. The City contributes \$170,000 as soldiers' bonus and former Governor Hoffman suggests a method that by borrowing from the Sinking Fund it avoids the necessity of the municipalities contributing, so Mr. Brams requests that we press the Essex delegation to sponsor that legislation.

We will now proceed with the pre-

sentation of candidates to fill the vacancy on the City Commission.

Are there any presentations?

Commissioner Byrne: Thomas F. Guthrie.

Mayor Ellenstein: Commissioner Byrne suggests the name of Thomas F. Guthrie. As many as are in favor of Thomas F. Guthrie being chosen to fill the vacancy will signify by saying aye, contrary no; the Clerk will call the roll.

On roll call: Commissioner Byrne voted aye, Commissioners Franklin, Murphy and Mayor Ellenstein voted no.

and Mayor Ellenstein voted aye; Commissioner Byrne and Murphy voted no.

An Ordinance concerning the operation and maintenance of open air parking stations in The City of New-

b. Upon obtaining such consent of the Director, said Director shall issue a sign tag, which tag must be at all times permanently affixed to said sign or signs and displayed with it, and the licensee shall pay for each tag so issued 25c per year;

c. Said signs shall contain no other

information except the rates, including time and prices, except that they may contain, subject to the approval of the Director, other information when special rates are displayed for parking privileges extended especially for the benefit of business concerns.

d. Said signs shall contain no abbreviation except as standardized and with the approval of the Director.

e. Said signs shall be not less than 12 feet square, nor more than 100 feet square.

f. Where more than one rate is charged the figures for each rate shall be of the same size, style and color.

g. Where periods of time are displayed they shall be of the same size style and color.

h. No lettering shall be less than 4 inches high and the lettering or rates or prices shall in no event be more than twice the size of the lettering of the periods of time for which such charge is made.

j. No licensee shall make any change for storing any motor vehicle in excess of that set forth in the application, and as displayed on the sign or signs upon said station until he has first notified the Director of the Department of Parks and Public Property, in writing, that such a change is proposed, and said licensee shall not make said change until one week after receiving notice, in writing, of such approval.

7. This ordinance is enacted for the purpose of raising revenue and for the regulation and control of open air parking stations.

8. Any person violating any of the provisions of this ordinance shall, upon conviction thereof, pay a fine not to exceed the sum of \$100 for the first offense, together with an additional penalty of not more than \$25 for each day such station shall be maintained in violation of this ordinance; and in default of the payment of such fine may be imprisoned in the county jail for a time not to exceed 30 days. 9. The provisions of this ordinance shall not be construed so as to impair the obligations of any contract or lease entered into by the City of Newark with any person and shall apply to all and every open air parking station whether or not said land is owned by the City of Newark or otherwise.

10. If for any reason any provision, part or section of this ordinance shall be held to be unconstitutional or invalid, the same shall not be held to affect other provisions, parts or sections.

Newark, N. J., March 27, 1940.

A regular meeting of the Board of Commissioners of the City of Newark, N. J., was held on the above date, in the Commissioners' Chamber, City Hall, Newark, at 10 A. M., Standard Time.

Present: Commissioners Byrne, Franklin, Murphy, Mayor Ellenstein; Acting Director Keenan.

Mayor Ellenstein: The Clerk will read the minutes of the previous meeting.

Commissioner Franklin: I move we dispense with the reading of the minutes.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners B y r n e, Franklin, Murphy, Mayor Ellenstein.

The City Clerk: Mr. Mayor, we are ready for the hearing on the Budget.

Mayor Ellenstein: The first order of business will be the public hearing on the Budget. I suppose the City Clerk has a list of those who desire to be heard.

The City Clerk: The first two on the list are Ethel M. Riley, of 41 Mapes Avenue, and Mr. Harry Stern of 18 Nairn Place, who wish to appear together.

Commissioner Murphy: I would like to make a few statements in reference to our ratable reduction program, due to the fact that some taxpayers may be misinformed and due to the fact that there has been some criticism by the press on this whole

matter. It will take only a few minutes and I think that it may clarify some questions that might be brought up.

In anticipating a rise in our tax rate in conjunction with our Budget handling, I made the statement that, in addition to other reasons, our departmental budgets must be not only kept down but reduced because of a reduction in ratables occasioned by our revaluation program, which reductions I approximated in the amount of \$90,000,000.

I used the estimate of \$90,000,000 in reliance on information given me by our revaluation project director, Charles F. Evans, several months ago. I was not informed at that time of the method used in arriving at this estimate.

When it became necessary to close the assessment books by March 9th of this year by order of the County Tax Board, and complete totals were then computed, it was found that the reductions amounted to \$50,331,825.

I appreciate the confusion that such a difference of approximately \$40,000,000 might create, when a higher figure is first approximated and on final determination it is found to be much less. But surely such a happening, resulting in a lower tax rate than expected, could only be termed a very pleasant error.

But, an error did not occur, and I desire that its happening be understood.

Before explaining the error, however, I do want to refute certain accusations that have been made. Statements have appeared in the daily

press that the drop from \$90,000,000 to \$50,000,000 looked like an overnight change made for one of two purposes, either to reduce the budget or to help hold down the net debt rate of the City. Neither of these are the fact. The compilation of the City's ratables has been a long and arduous task and consists of many thousands of individual items. The listing of these items takes many days, and it is only after the listings are completed that the totals can be made known. On the very face of it, it is absurd to think that an overnight change could be made in arriving at a total which takes months of preparation to arrive at. Any such change would have taken an almost equally long time to prepare.

The employees of the tax revaluation division had been working for many months. No whim or desire of mine to suddenly change the total could have produced a difference overnight, inasmuch as the completed tax rolls showing the valuation of each property in the City had to be in the hands of the County Tax Board by March 9th. I, therefore, most emphatically deny that any change from \$90,000,000 to \$50,000,000 was made by me or anyone else, to satisfy the desires of any one person or persons.

I requested Mr. Evans, who was in charge of the revaluation project, for an explanation. He was frank enough to advise me that the greatest part of the \$40,000,000 difference was due to his inability to make a more accurate estimate from the data he had available at the time the particular estimate was made. He advised that his original estimate was based upon expected reduction of approximately 20 per cent. in the total land values, which would have approximated \$50,000,000. At that time, only a part of the City had been covered by the land revaluation survey, and the areas considered comprised mainly residential and secondary commercial districts.

Inasmuch as it would be impossible to complete the revaluation of both land and buildings for the 1940 tax roll, it was felt that an equalization of building assessments should be made in fairness to property owners in those instances where comparable properties had been reduced either by City, County or State Tax Board appeals. After considering all these facts, Mr. Evans further advises he arrived at a final estimate of the total reduction for 1940 of \$90,000,000.

He further advises that he now realizes he should have kept me better informed as to the changes that were taking place, but that due to the tremendous amount of work necessary to have the tax rolls ready for the County Tax Board by March 9th, it was necessary for all of the regular employees of the Tax Revaluation Division to work at top speed and that, in addition to their regular hours, they worked four hours overtime daily from December 15th to March 9th. Toward the end of that period, they worked all day Saturdays, Sundays and Holidays as well.

The last tax books to be completed were those that included the downtown commercial properties, and the totals for these books were not obtainable until midnight, Friday, March 8th. It was these books that controlled the total loss most. Mr. Evans states that he had delayed the preparation of these particular books so that he could compile all additional rental, lease and sales data that would be available to be used in his analyses for the establishment of a new land value unit.

Because of the great pressure of work, he had not made any re-computation of the changes that were being made in the valuations. He never advised me that the percentage of change he had originally anticipated was different in total than his original estimate. It was not until the

final computation therefore, that the net reduction of \$59,000,000 was made known.

I am presenting the complete circumstances under which the reductions and ratables were determined and submitted. While I do not propose to dodge any responsibility, I am presenting these facts in man-to-man fashion so that my problems can be closely understood.

I am convinced that our taxpayers will appreciate my efforts in attempting to prepare a sound basis for taxation in our city, and be fair-minded enough to recognize my sincerity in making this effort.

For many years our methods of assessment had been permitted to go on in a hit or miss fashion, so that when I took office there was no semblance of a systematic approach to the problem. In fact, four years before I took office a tax revaluation bureau was established, ostensibly to do this work but in those four years, not a single step was taken in this direction.

When I took office I was deprived of the supervision of the Tax Board until after the start of 1938. During that year I soon discovered the condition of absolute chaos which existed in our methods of assessment. I found that as many as 20,000 tax appeals were being filed in a single year. A revaluation was a necessity, to put our house in order, and to install a system of fairness and equity to our taxpayers. This necessity was apparent not only to me, but to the County and State Tax Boards, which urged the need of a revaluation because of the great mass of tax appeals. I instituted this program knowing full well that errors would occur, and criticisms would be directed at me. I feel, however, that on the whole, the work has been well and efficiently done, that a mistaken estimate, which was not re-checked because of the great mass of work

which had to be done, does not detract from the fact that greater equality and fairness now exist in our taxing system, and that our taxpayers will recognize my sincere effort to be of assistance to them.

Mr. Mayor, I would like to say the reason that I want to get this statement out is on account of the criticism and the wrong impression being created in the minds of people on account of that change. I have Mr. Evans here today, and if there is anybody who desires to ask any questions that is the purpose of my having him here, and the City Assessors and all our own employees who were under his supervision operated this whole program and he is able and willing and ready to answer any questions in more detail than has already been given.

The following persons addressed the Board of Commissioners on the budget: Mrs. Ethel M. Riley, 41 Mapes Avenue, and Harry Stern, 18 Nairn Place, representing the Newark Citizens' Union; John C. Feil, 205 Peshine Avenue and Herman Brams, 1060 Broad Street, representing the Newark Taxpayers' Association; Max Littman, 525 Elizabeth Avenue; Laurence Mahan, 60 North Sixth Street; Meyer Zemel, 826 South 13th Street; and Ira Zuckerman, representing a conference of labor and social groups.

Commissioner Murphy: Mr. Mayor, I think it is no more than fair to bring this to the attention of the Commission. You may hear probably some adverse criticism on the budget. At the budget conference that was held yesterday with Mr. Darby, there were certain items that were discussed such as the one here today, the item of the credit with the County in reference to our gross receipts and franchise taxes, and in reference to the relief item that was partly discussed today.

When the budget comes back you

will find that there is a list of disallowables, as they call it, and it will be necessary for this Commission to take that up with the Local Government Board and discuss these matters as to where we think the City of Newark is not being treated fairly.

I mention this because the budget will come back and what he terms "disapproved" probably within the next day or so, and we will then have to prepare what is called an amended budget.

I bring that up because I don't want anybody to be scared when they hear of the budget being disapproved. There are just the certain items that were questionable before we even entered them in the budget at that time.

Mayor Ellenstein: I would suggest that as soon as you receive word from Mr. Darby that you communicate with me.

Commissioner Murphy: So we can call a special meeting?

Mayor Ellenstein: No. We will call an informal meeting and then we can decide whether or not we will appeal to the Local Government Board and arrange a date with them. Then after the meeting with the Local Government Board we will call a special meeting.

A motion will be in order at this time that the public hearing on the budget be closed.

Commissioner Franklin: I so move you.

Commissioner Murphy: I second the motion.

The roll being called, the motion was declared adopted by the following votes:

portion of Academy Street lying between Halsey and Washington Streets, in the City of Newark, Essex County, New Jersey.

The ordinance having been read three times was then declared to be upon its third and final passage.

The roll being called, the ordinance was declared adopted by the following votes:

Yeas: Commissioners B y r n e, Franklin, Murphy, Mayor Ellenstein.

The City Clerk presented An Ordinance to amend an ordinance entitled: "An Ordinance to amend Section 4, of an ordinance entitled 'An Ordinance regulating the sale and distribution of milk, cream and milk products, in the City of Newark,' adopted July 1, 1931," adopted September 14, 1938, and stated the ordinance had been introduced on information March 20th and the time for a hearing fixed for today.

Mayor Ellenstein: This ordinance was introduced for information. Is there any person who desires to be heard on this ordinance?

Mr. C. Wallace Vail, 60 Park Place, Newark: I understand that there are some people here who want to be heard in favor of the ordinance and perhaps the more orderly procedure would be to hear them first.

Mayor Ellenstein: Our procedure has been to hear those opposed to it. That has been the procedure.

Mr. Vail: Very well, sir.

Mayor Ellenstein: You will have an opportunity, you know, in rebuttal, to add to anything you might have said, so that you will not be at any disadvantage.

Mr. Vail: I appear today on behalf

of the Milk Processors' Association of Northern New Jersey. There are about eighteen or twenty members, and it represents, perhaps, the greatest number of processors in the northern part of New Jersey. Also for the New Jersey Cream Line Association, with perhaps about forty members in that, and also for the New Jersey Official Grade A Milk Dealers' Association. That has a membership of about 75 dealer members and over 300 producer members.

Also for the New Jersey Cattle Club. That is not the State of New Jersey; that is the Jersey Cattle Club, and the Holstein Cattle Club.

Mr. George Bailey, who appeared here two weeks ago, represents the North Jersey Milk Council. He asked me to state to the Commission that his views upon this ordinance were the same as the views that I represent. He was engaged elsewhere and could not appear here.

We also have today Senator Hollinshed, who represents the United Milk Producers, having about 10,000 producer members.

The ordinance that was introduced for information is objectionable because it limits the number of dealers to one dealer for each 1,500 of population. Also because it has eliminated from that mathematical calculation the stores. At the present time there are approximately 2,000 licenses outstanding in the City of Newark. Of those 2,000 there are approximately 277 dealer licenses. That is wagon licenses, peddlers, and the rest of them have been issued to stores. That is objectionable because—

Mayor Ellenstein: Inclusive of stores there are 2,000 retail dispensers of milk?

Mr. Vail: Including stores.

Mayor Ellenstein: 2,000 retail dispensers of milk inclusive of stores?

Mr. Vail: That is an approximate figure. It may mean 50 or 100, one way or another.

There are other features of the ordinance that are objectionable to my clients. For instance, in subdivision 1, section B it says here that after a license has been issued it shall not be transferred unless a written request is filed with the Department of Health and the written consent of such transfer is given.

That may seem all right upon the surface, but a dealer may be purchasing milk from one source and suddenly find that his source of supply is cut off and he wants a change. That is arbitrary to the extent that it does not permit the dealer to buy milk from any other approved source, and with that selection there would be no objection to that part of the ordinance.

There, there was one other feature of the old ordinance that was objectionable, in that there was a section in there under which the Department of Health conducted oral examinations such that I doubt that any Health Officer could answer. They went into the chemistry of milk and the laws of the State of New Jersey respecting the producing of milk and the inspecting of herds and such things. It covered a multiple subject that was not necessary for the dealer to be familiarized with in order to deliver a bottle of milk.

Mayor Ellenstein: Is that contained in this ordinance?

Mr. Vail: There has been an attempt to eliminate that in this ordinance and so far as that attempt goes, it is satisfactory, but I would like to say, and my client would, that it goes a little further. The ordinance as it now stands says nothing shall be construed as authorizing the Board of Health to question the applicant orally.

I discussed it with Mr. Blank, and we sort of agreed upon that, but subsequently we had meetings on this thing, and the industry feels that is all right as far as it goes, but it should be broadened to include the laws of the State of New Jersey. That is, it should eliminate any oral examination on the laws of the State of New Jersey with respect to the production of milk. It is not necessary for a dealer to know how milk is produced. He should know how to take care of a bottle of milk after it has been delivered to him. Whatever the processes or the handling are prior to the delivery to the licensee, that is something else, but the licensee has to know what to do with the milk once it is delivered to him.

Mayor Ellenstein: I think that is a very reasonable criticism.

Mr. Vail: There is one thing here in subsection 3; I believe it is B-1, "in no event may the license be granted for the sale or delivery of milk and milk products in the City of Newark where the following circumstances exist," and that is where the number of licenses already issued are equivalent to one to every 1,500 residents of the City of Newark. That should be finished out; and eliminate the stores, otherwise this section is repugnant to the first section.

Mayor Ellenstein: What is the first section? That limits the number to one dealer in every 1,500, isn't that so?

Mr. Vail: Excepting to stores, and there is no limitation upon stores, so it should be corrected to include the stores, if the ordinance is going to pass the way it now stands.

That has nothing to do with the substance of the objections. It is simply a defect in the preparation of the ordinance.

Mayor Ellenstein: Your clients

would have no objection if the stores were included in that limitation?

Mr. Vail: Oh, yes.

Mayor Ellenstein: They would have?

Mr. Vail: Oh, yes. The elimination of the stores is accumulating the objections to the ordinance because there is the discrimination—

Mayor Ellenstein: You are opposed to the fundamental principles contained in the ordinance, limiting the number of dealers?

Mr. Vail: Exactly.

Mayor Ellenstein: And your opposition would be just as determined even though stores were included?

Mr. Vail: And it is not only as determined but the opposition is greater, with this exception to the stores, because there is then a discrimination within the dealers themselves. That is a multiplication of the objections.

Mayor Ellenstein: You raise a question because a man does not have a store that he should not be put in a separate category from a man who does operate a store.

Mr. Vail: That is right, sir. Then, in Section 9, which reads, "Where the license of the applicant will impose upon a market already adequately served a supply of milk, cream, or milk products, which would tend to create conditions adverse to sanitary standard and maintenance of public health, or disrupt the orderly marketing conditions requisite for the marketing of perishable food products," that is an attempt to regulate the economics of the situation, and the courts of our State, the Court of Errors and Appeals, have held just recently in the case of the New Jersey Good Humor, Inc. against Bradley

Beach—I think that came out in the Advance Sheets only this week—and also in this case which I gave you the last time I appeared here, Sheffield Farms vs. Seaman. That is commonly known as the Perth Amboy case.

There the Court has said, and in other cases, that you cannot regulate the economics of an industry even though it is affected with a public interest, and here it says that a municipality has certain limitations upon its powers. In this case of New Jersey Good Humor, vs. Bradley Beach, the Court of Errors and Appeals only on January 24th said that a municipal corporation is the creature of the Legislature and possesses only such rights and powers (a) as have been granted in express terms, and (b) as arise by necessary or fair implication or are incidental to the power expressly conferred, and (c) as are essential to the declared objects and purposes of the municipality, not merely convenient but indispensable. It has no inherent jurisdiction to make laws or adopt regulations of government. It is a government of enumerated powers, acting by a delegated authority; and any reasonable or fair doubt of the existence of the asserted power, or any ambiguity in the statute whence it springs, is to be resolved against the municipality and the power is denied.

I have examined the laws and the statutes rather carefully and I cannot find any delegation of power by the Legislature to a municipality to regulate the economics of an industry, and the Court of Errors and Appeals in this case from which I am just now quoting, which was brought before it on the question of the validity of an ordinance adopted by Bradley Beach prohibiting hawking and peddling within the municipality, to sell merchandise, the Court said there—and I won't go into all the language because I don't want to take up all the time—that such an ordinance was not

within the delegated authority of a municipality; that it was an attempt to regulate the economics of that particular industry, that is, hawking, and it could not be done, and it was set aside, and, I would like to again respectfully bring to your attention this Perth Amboy case in which the Court said that because the municipality arbitrarily refused to examine the sources of supply, because they said they had enough dealers down there, it was an attempt to regulate the economic situation and they did not have that power, and the city was forced to grant the license to the applicant.

Now, we have exactly the same situation here. The limitation of the number of licenses has nothing whatsoever to do with the protection of the public health, and that is as far as the municipality may go in the regulation of the milk industry. Various industries may be treated to a more or less degree with respect to regulations.

This municipality has a right to regulate the milk industry so long as the regulation is reasonable and affects the health of the people that use milk, but it cannot regulate the economics of the situation, and where there is any attempt to limit the number of licenses that is an attempt to regulate the economics. No matter whether it is difficult for the Department of Health to supervise, no matter whether some people cannot continue in the milk business there are too many there; it makes no difference. It is not within the delegated power of the municipality to indulge in such regulation, and when the regulation goes further than to regulate the economics of the local situation, as it does here, it gets into the very root and backbone of the milk industry, which, I think is to be admitted, is one of the important industries of this state and runs into billions of dollars and it is now being regulated almost out of existence.

It is necessary to do something to protect the valuable industry to the State, and it is the same thing that was discussed a while ago on this relief ordinance. There has to be some cooperation between the two ends. Here we have the greater amount of interests who do not want milk regulated to such an extent that they cannot find a market for their milk in this State. These licenses are issued one to a dealer. Now, I am using the name of a larger company without anything more except just to illustrate. Take the Borden Company, for instance; they get one license. Tom Jones, who has a 300 quart milk route, gets one license. The larger companies can put on as many wagons as they care to. The larger companies can buy milk not only in the State of New Jersey but anywhere, in other States, if they so choose. The small independent dealer is precluded from going after this milk. He has to depend upon the local supply of milk. The local supply of milk is the New Jersey producer. They are interested in selling to the local independent dealer, and when the municipality starts to regulate them out of business that affects the very source of supply of milk that is necessary in the state. This ordinance is objectionable because it affects not only the local dealer but it goes to the very backbone of the milk industry. It is objectionable because it is arbitrary, capricious. It is doubly objectionable now because it not only regulates the number of licenses but it discriminates as between the licensees as to how many licenses shall be issued. It permits the storekeeper to have as many licenses as they want, but the dealer—and there are now about 277 licenses issued to dealers, and this limitation would permit 300, which would leave 22 licenses in the reservoir to be issued, and it can readily be seen what condition may be created there is such a limitation is put on this.

I think perhaps someone else may

want to say something. Senator Hollinshed is here, representing the United Milk Producers. I know that he wants to get away.

Mayor Ellenstein: Do you want to be heard now, Senator?

Senator Harry H. Hollinshed (Sussex County): Yes.

Mayor Ellenstein: Are you objecting to the ordinance?

Senator Hollinshed: Your Honor, Mayor Ellenstein, and members of the Commission. My name is Harry H. Hollinshed, general manager of the United Milk Producers of New Jersey, an organization of about 2,500 producers within the State of New Jersey. It is not a cooperative in the sense that it markets and sells the milk of its members but the producer-dairy man sells to the dealers, and the remarks that I have to make, your Honors, are addressed to that part of the ordinance which would, in the application or in the issuance of these licenses, show a discrimination. For instance, within the State of New Jersey we have possibly seventeen or eighteen handlers of milk who are commonly termed processors. They buy this milk almost entirely from New Jersey producers. They don't retail the milk, in the sense that they have no milk routes. Their business is entirely through sub-dealers. Now, then, in that category, as I say, we have perhaps seventeen or eighteen.

I know that about a thousand of the members of the organization of which I am manager, these dairy farmers, sell through that medium of outlet. Those processors, as I say, who perhaps would handle anywhere from 500,000 pounds to 1,000,000 pounds of milk a month, dealing to several dealers, would perhaps require anywhere from 20 to 30 or 40 licenses, depending on the volume of milk and the number of such dealers they might have, whereas, in contrast, the one

dealer maintaining his own distributing route would only need one license.

It might be interesting but I do not wish to go into the question of New Jersey milk as against out of state milk. That is not the point. I was very much interested a moment ago, speaking about this interdependence of agriculture and the needs of the farmer in New Jersey, I was also interested, when the question of relief came up, because the poor farmer can't go up. He is just stuck with his relief and cows.

I can see that in the course of time there will be some need of the individual farmer to sell his own milk. He can't make a profit by selling to the dealer; he is going to create his own little route. I can see in the limitation of the number of licenses that it might be, under these circumstances, disastrous for these people who want a different outlet than they have now. It is especially discriminatory in relation to the dairy processors in contrast to the dealer, who markets his own milk.

There is one point that I might speak about. I am almost tempted to congratulate your Department of Public Works in its effort, at least, to recognize the interdependence of the economic as well as the health angle on this question of milk. I believe it is the first time in the State of New Jersey that this has been brought out in the consideration of an ordinance. I have maintained that before our State Board of Health time out of mind, and I believe—whether this is legal, this attempt on attempt on your part, is not the question, but I do want to point out this, that New Jersey with its 6,125 producers supplying 65 per cent. of the milk and cream requirements of the State. has issued for out of state producers licenses, to more than 39,000 out of state producers who supply the 35 per cent., and we wonder why the

milk industry is haywire. It is top heavy, no doubt. I am not going to call your attention to the large volume of out of state milk sold in the City of Newark, in comparison to that produced in the state. I think the fact is that something like 65 per cent. of milk and cream supplied in the City of Newark are produced outside of the State of New Jersey. I am not sure on that. I don't want to make an affidavit on that, but these have been given to me as facts.

Mr. George Rosenbaum: I represent the Lincoln Food Stores. There is only one question in my mind that I would like to ask the City Commission, and that is, if these licenses are to be granted whether or not a clause can be put in these restricting the license to the sale of milk only, because we find that these distributors carry today anywhere, almost as much as 53 articles pertaining to the food line and other lines on their wagon.

Mayor Ellenstein: You couldn't do anything like that any more than to legislate that you deal only in a certain type of clothing.

Mr. Rosenbaum: In other words, under the milk license they can handle anything on their wagons?

Mayor Ellenstein: So long as it does not affect the health of the general population of the City.

Mr. Rosenbaum: It will affect the care of the milk, the proper care on the wagons.

Mayor Ellenstein: Of course, if they had a wagon carrying milk on one side and sewerage on the other it would affect the health, but anything that would not affect the health of the general population of the City they could not legislate on. It has to do with the police powers of the City. You can't pass any ordinance beyond the police power, and the police power

er is limited to the health, safety, and morals, and as Mr. Vail points out, you can't regulate the economics. You are limited to the police powers, which only affect the health, safety, and morals of a community.

Mr. Rosenbaum: And nothing else?

Mayor Ellenstein: Nothing can be done.

Mr. Rosenbaum: All right, thank you.

Mayor Ellenstein: Is there anyone else who desires to be heard in opposition?

Mr. S. M. Schearman: Mr. Mayor and members of the City Council, I represent the New Jersey Cattle Association of New Jersey, which consists of about 65 members, and also the Jersey Creamline, Inc., which is a sales institution for the purpose of selling Jersey milk.

I am opposed to this particular ordinance for the reason that I am opposed, and we are opposed, to any ordinance which would tend to restrain the milk industry, which I believe this ordinance would. All regulations are made for the purpose of doing somebody some good, and yet the culmination of all the small details and regulations that are brought into the milk industry finally become grinding among each other to such an extent that the milk industry and the person whom it is supposed to help—it acts as a direct boomerang to him and reflects right back on their industry, and that has been the effect of a great many regulations.

I am also opposed because those already licensed amount to approximately 277, and they already have their licenses. We have got few over up there out of the 300 as of the present time that might be licensed. That would give a very good opportunity for some live individual in the

course of years to corner the licenses in the City of Newark and perhaps buy and sell them as they saw fit. That could be very reasonably expected.

Another thing; I, for instance, live in the town of Chatham. Suppose that the town of Chatham, which is a small town, has a great many merchants coming in with delivery trucks and dropping products in our small town, suppose they should say "We have enough of this. We have enough laundry men. We have enough bakery men. We will limit the licenses. We have enough milk dealers. We will limit those licenses." There you have your boomerang. We could do the same thing. We each depend on one another. This thing mainly affects the independent milk dealer, as Mr. Vail has said, inasmuch as he has a number of such dealers to whom he sells milk and who have licenses to sell in the City of Newark, whereas the big company can place as many routes on the road as they see fit by holding only one license.

Therefore, I am opposed to this ordinance for that reason.

Mayor Ellenstein: Are any of the proponents here, those in favor of the ordinance?

Mr. James E. Bryan, 571 Hawthorne Avenue, Newark: I represent the Independent Milk Dealers' Association who, by and large, are residents of the city and they are actually distributing in the city, and paying taxes and trying to make a livelihood in the city. We are very much in favor of restricting the number of licenses that have been issued, and we have several reasons why we think that would be beneficial, not only to the milk dealers but to the inhabitants of our city as well.

We have at the present time a great abundance, a real oversupply of dealers and distributing interests here.

You can readily appreciate the fact that the volume distributed by the individuals, to a large extent sets the cost of distributing the commodity. We have so many dealers in town and so many routes running, that there are very, very few operating on anything like a volume basis that makes it profitable. We also have a milk control act that sets the prices to be paid by the consumer, and it makes it mandatory on the part of the Milk Control Board to take into consideration the cost of distributing.

You can readily see that by lowering the volume of each distributor you naturally increase the cost to the consumer, because the average route is only putting off 200 quarts of milk, and that must be taken into consideration in allowing for a profit. On the other hand, if they operate on a maximum basis of 400 quarts it would quickly cut the delivery costs and that saving would be passed on to the consumer.

We certainly appreciate the assistance that we have had through the Department of Health and the Commissioner here in endeavoring to limit these licenses and keep them somewhat in bounds, and rather select the people to whom licenses have been issued, after he has been greatly handicapped by the ordinance which gave him practically no discretion, and we certainly feel it would be a benefit to everyone if some power would be granted to the department to allow them to issue the licenses.

On the few remaining issued, we can very readily go along on that. The amount can be made so as to make it on the basis of 200 or 250 rather than 300 licenses that would be issued, and as licenses are dropped don't issue them, and that would be an improvement over the basis of the present ordinance. However, if it has already been drafted your basis is better than nothing.

Mayor Ellenstein: Your objection is an economical one?

Mr. Bryan: Yes.

Mayor Ellenstein: You say that if more licenses are granted it cuts down the profit. There is a certain amount of milk to be delivered in the City of Newark.

Mr. Bryan: That is right.

Mayor Ellenstein: The more licenses the less each one will deliver.

Mr. Bryan: That is right.

Mayor Ellenstein: Every time a license is granted somebody takes some of the existing dealers' business.

Mr. Bryan: I might say that our friends, the processors, who are opposed to this ordinance, practically everyone is from out of the city. They are willing to come in here and start every Tom, Dick and Harry in the business. He goes with twenty quarts of milk and starts building up a route.

Mayor Ellenstein: Suppose the grocers came in and said that we ought to limit the grocers for the same reason, that we have too many grocery stores?

Mr. Bryan: I believe that you have a different situation there. Speaking as a taxpayer of the city, I believe every grocer that goes in business here is at least putting in a certain amount of stock. He is going to contribute to the city. On the other hand, the milk dealer license is only \$2. and I know that you appropriate a large sum of money to the Health Department to supervise this distribution, and the more licenses you put out the greater the cost of supervision.

Mayor Ellenstein: I do not think that the City Commission has any authority to regulate the economics

of it because they open the door wide and next week the grocers or gasoline station owners may come in and say that we have too many grocery stores or gasoline stations, and they can come in and ask that we limit them or stop people from selling from a wagon. That is something that the City Commission has to consider.

Mr. Bryan: I believe that it is already a practice in certain instances, taxicabs and saloons, and a number of other things.

Mayor Ellenstein: On saloons it has a different aspect. There it is protecting the morals of the people of the city. A person cannot get drunk with milk, unless there is a punch in the milk.

Mrs. Minnie Eisenberg, 129 Wainwright Street: Your Honors, in reference to licenses being restricted, I would say the same as grocers and others could be restricted, the milk dealers' license could be restricted, provided it was under the control of the New Jersey Milk Control Board. Without any regulation our existence is taken away. When boys twenty and twenty-one enter our line with new licenses it takes away the existence of unfortunate peddlers. My husband and I have been working practically for twenty-one years, hand in hand, and we cannot go on paying our bills because of the boys who take up the milk business temporarily until they get new jobs, and we cannot maintain our homes and keep up our children in our homes and pay our bills.

The grocers sell 100 articles and we only sell milk. We have no means of existence today with what is going on today, being controlled by the milk regulations on one hand and by the underselling by those new boys on the other hand, who take away our existence. We want to be respectable citizens and pay our bills but we have no way of doing it. Thank you.

Mayor Ellenstein: Is there anyone else?

Mr. Herbert Harrison, Caldwell, New Jersey: I represent the Sheffield Farms.

As a matter of record, I want to say that we are in favor of this ordinance. If the Department of Health feels that this amendment is to the good of the public health, we do not wish to oppose it. I just want to say that I do not think anybody from the Northern New Jersey Milk Council was authorized to speak here today. We are a member of that organization, and as far as I know, it was decided that each member would speak for himself and nobody would speak for the group.

Mayor Ellenstein: Wasn't there any unified action by the Northern New Jersey Milk Council?

Mr. Harrison: Not as far as I know.

Mayor Ellenstein: Who represented the Northern New Jersey Milk Council?

Mr. Vail: Mr. George Bailey appeared last week representing the Milk Council, and he spoke against the ordinance in the same tenor I did, that it was an unconstitutional thing.

He called me this morning and he said that he couldn't be here and he asked me to represent him here, and I received no contrary instructions.

Mr. Harrison: I would like to check that and notify the Board at some time whether Mr. Bailey had authorization to make any statement or if anybody made any statement for the council.

Mayor Ellenstein: Is there anyone else?

Dr. Charles V. Craster, Health Of-

ficer of the City of Newark: Mr. Mayor and Members of the Commission, the control of milk, of course, is up to the Health Department, which is supposed to see that the milk delivered in the city is pure, clean, and fit to be used and safe to be used by the children of the city and adults, too.

Ever since the depression we have had a continuous increase in the number of people who seem to feel that the peddling of milk is the easiest thing they can think of in the way of getting work of some kind, so that it has been difficult for the Health Department to control the issuance of licenses because, if you really understand the promiscuous handling of milk by all kinds of people who do not know the danger of milk, from the point of view of contamination, keeping it clean and refrigerated at all times, that that is an important thing in the handling of milk, so that the Health Department has been extremely put to, to try and arrange a method of controlling the necessary distribution of licenses.

We formerly, a few years ago, refused to issue a license to a person whom we thought was not mentally able to take care of the milk they were going to handle, so we refused those licenses and then they went on and got some lawyer who came and threatened us, if we did not issue a license they would go to the Court of Chancery and have a writ of mandamus sworn out, making us do so. Well, for some time we went along, and when they went to the Court of Chancery we, rather than have a fight, issued the license, but the practise of going to the Court of Chancery was frequently used as a club over our heads. We finally decided to allow a case to go to the Court of Chancery to discover what was the attitude of that court with regard to the control of the licenses.

The case came up and it was duly

heard, and the Judge in his decision stated, "Well, you have nothing in your Milk Ordinance which puts any safeguards around the issuance of licenses. It simply says that the licenses shall be issued, and the name and address and the place where the person is going to get the milk from."

He said, "Now, until you can surround your ordinance with some method of requirements, I am obliged to make a decision giving this man a license," so we issued the license, but we took the advice of the Chancery Court as something which was worthwhile considering, whether we couldn't place around the issuing of licenses any protective measures, and in the course of our deliberations we decided that the best thing would be to have a mild, simple examination of the applicant from the point of view of contamination, whether he knew the laws relating to milk, whether he realized the danger and the possible contamination of the article he was going to sell, and in our judgement, with the director's approval, we appointed a small board, an examining board and the questions that were asked by that board were so simple that I think any Eighth grade child could answer them, and yet they were considered too stringent, too difficult for the applicant to answer. The result was that we again had a Chancery Court action threatened, we were going to be taken to the Chancery Court for the Judge to decide whether we had asked the proper questions with regard to milk supply.

Rather than have another Chancery Court action, which costs the city money, the Director said that the best thing to do would be to arrange another type of control on the licenses, and this was the establishment of a maximum number of licenses we should issue. That has been done. It was done and advertised, and we considered the num-

ber of licenses existing in the city were sufficient to supply the needs of the city at the present time. We did not feel that there were going to be many more conditions arising which would demand a greater number of licenses, so the ordinance was finally drawn making a population standard of one license for every 1,500 population.

That did not indicate we would not change the ordinance if there was any requirement, but it did keep down the possible flood of applicants.

You are quite right, Mr. Mayor, when you say that the Board of Health is not interested in the economics of the situation. It is very much interested in the control of the licenses because if they get too many and they are in the hands of irresponsible persons we cannot control them, and we have a very definite duty to the city to see that the milk that they get is safe and delivered in a proper way on their doorsteps in the morning.

We do not feel that the ordinance as drafted at the present time is at all drastic. We think it is very, very fair, and I do not think that any of us have any idea of interfering with the milk as a business, but we do feel that the conditions surrounding the issuing of milk licenses should not be allowed to be so easy that it becomes simply a traffic in licenses.

Mr. Samuel G. Sahrwell, Chief, Food & Drug Inspector, Department of Health: The only thing, your Honor, it is true that we have had our troubles the last five or six years, particularly since depression. Everybody thinks there is profit in the milk business. They read the papers about the Control Board having a bill for selling at the prices fixed by the Control Board and they get all worked up, and they think that all they have to do is to get a license to make a good living. A man cannot go out today

and pick up a trade. He has got to have some money.

We figured up before I left, if this ordinance passed, out of 275 that would only allow 220 quarts for each customer, and with milk sold at grade how can a man make a living, when he pays automobile license fees and they have this thing and this thing.

Another thing, I have heard something mentioned here about the people they represent. The people they represent, I don't believe they are here. We have quite a number here that really represent themselves. They are independent dealers of the City of Newark, and I would like the privilege of calling on them to stand up.

Will you all stand up that represent retail dealers in favor of this ordinance?

(A group of persons stood up).

Those people that come and talk to you and tell us it is unreasonable, they don't realize what trouble there is in this license business. Everybody wants a milk license. They would kill a man for a milk license.

Anton Schieferstein, Somerville, N. J.: Gentlemen, I represent the New Jersey Grade A Milk Dealers' Association.

Statistics show that the average consumption is about a pint per person, and if these retail licenses are limited it would only amount to 250 quarts delivered retail, and the rest would be in the stores. These licenses might be applied to stores. The stores could not supply the milk.

Mayor Ellenstein: You are speaking against the ordinance now?

Mr. Schieferstein: Yes, I am speaking against the ordinance now. You see, Mr. Vail had spoken for the as-

sociation I represented and I thought I would like to say that I am here in person.

Mayor Ellenstein: That is all right. I just want to make that clear.

Mr. Schieferstein: Mr. Sharwell tells us that he doubts whether half the people he represents are here. I am appearing in rebuttal. I represent that association.

Mr. Sharwell: I will have to apologize, your Honor. I didn't know who was here but I will speak for the rest. He is the only one. I talked to him yesterday on the telephone.

Mr. Schieferstein: There is another representative, of the Holstein Association.

Mr. Peter B. Van Nuys: Gentlemen, I represent the New Jersey Holstein Association and Dairy Council. I simply want to make a statement representing the producers in this state, that we are opposed to any restriction that may keep any producer's milk out. We feel this ordinance would be unfair, and the fact that you limit the number of dealers and don't limit the number of stores would probably be discrimination to them.

Mayor Ellenstein: You object on the ground that it limits the number of dealers without taking into consideration the stores?

Mr. Van Nuys: Right.

Mr. E. St. John Baldwin: I am from the Borden Company. Your Honor and Gentlemen, I am going to go on record as in favor of this ordinance, inasmuch as the meeting has simmered down to a voting proposition. We have no objection to it and I would like to vote in favor of it.

Mr. L. T. Woodruff: I represent the Independent Milk Dealers' Association of Essex County. Mr. Mayor and

Commissioners, I am here to speak for our association in favor of this ordinance for the simple reason that we believe there are ample dealers in the City at the present time to take care of the current needs. Each license issued makes a hardship upon those who are presently in the business, and for that reason we are in favor of this measure.

Mr. Philip Borak: Mr. Mayor and Commissioners, I represent the Supreme Milk and Cream Company. We want to be on record that we are for that bill for the limitation of licenses.

Mayor Ellenstein: You are in favor of it?

Mr. Borak: We are in favor of it, the Supreme Milk and Cream Company. Thank you very much.

Mayor Ellenstein: Is there anyone else?

Mr. Vail: I don't want to bore this Commission but this thing seems to have simmered down, as somebody said, to a vote proposition, which has nothing to do with it.

Mayor Ellenstein: The Commission is not concerned about that. We are not inviting numerical strength. If that is the impression somebody has gotten, that is their own.

Mr. Vail: I am surprised that the Health Department has taken an active interest and paying attention to the economical situation rather than what it should do, and that is the health situation, and I am also very much surprised to have questions as to whether or not I represent the people that I appear here for. I happen to be a lawyer. I am not in the milk business, and I propose to get paid for representing my clients.

Mayor Ellenstein: And not in milk.

Mr. Vail: And not in milk. My capacity is a little bit limited, but all of those who spoke in favor of this amendment to the ordinance touches upon only one topic, and that is the economical situation.

The Board of Health is annoyed because it has to be troubled to do its job of granting license to people who want to come in and get a license that they have a right to get. It is none of its affairs as to whether or not it disturbs somebody in the milk business. Its function is to regulate the health and to prescribe such rules as may be requisite to protect the health of the people that use the milk.

Now, these questions that Dr. Craster speaks about as being simple, he did not produce them here and I would like him to do it. So far as being simple, it is my understanding that before a person can pass this examination they have to take a course down in Perth Amboy or some other place, in a school.

Commissioner Franklin: You don't mean to say that we send them to school?

Mr. Vail: I didn't say anybody in the City of Newark sent them there.

Commissioner Franklin: Is there such a school?

Mr. Vail: There is somebody that teaches them how to answer these questions, because it is impossible for anybody to answer these questions that are asked, and it costs each one of the applicants who comes in for a license money. The Department of Health in this city has made it as difficult as it possibly can for anyone who wants to go into a legitimate business, legitimate at common law, and the courts of this state and other states have said that it cannot be regulated economically.

Commissioner Franklin: Except that economics has a bearing on the ability to conduct it in a healthful manner. In other words, if the door is opened and there are another 100 or 150 who get licenses then it is going to be a cut-throat proposition where probably a person cannot make a living. He has twenty or thirty quarts on his route and he cannot make a living out of it. Then the health of the community will be endangered. He will put water in the milk, and in that the Health Department is interested to see that the consumer gets a proper bottle of milk. That is the one element that enters beyond the economics. The economics has a basis that might lead into a deterioration of the health conditions. That is a possibility, isn't it?

Mr. Vail: I respectfully disagree with you, Commissioner. There is nothing to prevent any licensee in the City of Newark today from putting water in the milk if he wants to.

Commissioner Franklin: There is less reason for him to do it if he is making a reasonable profit out of the legitimate business that he has.

Mr. Vail: It comes right back to the same thing, and that is regulating the economic situation, and the regulation of health is just incidental.

The question that should be propounded to these dealers is whether or not they know how to handle milk and whether they keep it in a sanitary condition.

I think that any further argument is just cumulative, and I respectfully urge this Commission not to adopt this amendment to the ordinance.

Mayor Ellenstein: What is the disposition of the Commission.

Mr. Sharwell: I conducted those examinations, and it is pretty true from what the counsel has said, that they

have opened up a school in New Brunswick, but I want to tell you that out of 86 examined there were 13 passed, and I can safely say and anybody else can safely say, if they know something about the milk business you get it up there. You have to have a license to sell liquor. There is a restriction on liquor licenses in the City of Newark, and I think that this is more important than liquor. Thirteen passed out of 86, and they are intelligent people.

Mayor Ellenstein: Written or oral?

Mr. Sharwell: Oral. This gentleman represents, as I understand, the Northern New Jersey Processors' Association. Those people that he represents raise milk and distribute milk, and they have to have somebody to sell the milk, and I have known them to go to work and pay another man's bills that he owed somebody else; to buy milk off them. That is the Independent Milk Processors' Association. I can prove every statement I make.

Commissioner Franklin: I move the adoption of the amendment.

Mayor Ellenstein: It depends on the disposition of the Commission whether it be introduced on first reading or not, or whether it be referred to the Law Department.

Commissioner Byrne: I move that it be referred back to the Law Department.

Commissioner Franklin: Mr. Mayor, I would like to get some action on it because we are faced with these mandamus proceedings. Let us have it one way or the other. If it is going to be opened, let it be opened.

Mr. Blank, Assistant Corporation Counsel: Mr. Mayor, with reference to the legality of this amendment, I want to say that there was much said today with reference to the en-

tire ordinance. That is really not the subject matter of this amendment. The amendment is very simple.

As to the legality of that amendment, it is my firm opinion that because of the absence of definite law in the State of New Jersey, notwithstanding what Mr. Vail said, this amendment can be upheld. I want to call your attention to the fact that in New York City there is such an amendment. Of course, it is an amendment to the sanitary code, and according to the sanitary code in New York City no new license can be given to anybody and no license can be issued to anyone, and no one has a right to sell milk except those licensed as of September 1, 1939. The matter was brought twice to the courts in New York.

Mayor Ellenstein: Do you mean to say that New York City has an ordinance which arbitrarily sets the number of licenses to sell milk?

Mr. Blank: Yes, Mr. Mayor.

Mayor Ellenstein: How about the question raised, about the dealers and storekeepers who sell milk?

Mr. Blank: I spoke with Mr. Vail about the matter and I think it was Mr. Vail who called my attention to that, that the storekeepers should be excepted, and I am sure that Mr. Vail should remember that.

Mayor Ellenstein: He takes exception to that.

Mr. Vail: I don't want to say exactly no. Mr. Blank and I discussed this but I didn't know that we came to any definite conclusion about anything except one section of the ordinance which had to do with the examination. There was a lot of talk but we got absolutely nowhere. The only thing that I said here that I didn't say to Mr. Blank was that this was an accumulation of objections,

but this eliminating the store does not eliminate the objections. It just accumulates.

Mayor Ellenstein: How many are affected?

Commissioner Franklin: 275.

Mayor Ellenstein: It would be limited to how many?

Commissioner Franklin: 300.

Mayor Ellenstein: And the 25 additional applicants would have to pass an examination anyway?

Mr. Blank: No.

Mayor Ellenstein: You eliminate the examination entirely?

Mr. Blank: We eliminate the examination entirely.

Mayor Ellenstein: In that provision of this amendment you eliminate the examination entirely?

Mr. Blank: Yes.

Mayor Ellenstein: Is that the way the ordinance was drawn in New York?

Mr. Blank: In New York there is no examination for that. Of course, the ordinance in New York simply closes them out. Nobody can get a license except anyone who has a license under date of September 1st, 1939.

Mr. Vail: I don't know whether the ordinance has been tested out.

Mayor Ellenstein: Are there any other cities that you know of that have an ordinance like this?

Mr. Blank: No, Mr. Mayor.

Mayor Ellenstein: Have you seen a copy of the ordinance?

Mr. Blank: Yes, I have.

Mayor Ellenstein: Have you got it available?

Mr. Blank: I haven't got it available, no.

Mr. Sharwell: Your Honor, I saw the ordinance and what he says is true.

Mayor Ellenstein: What is the disposition of the Commission?

Commissioner Franklin: I make a motion that it be introduced on first reading.

Mayor Ellenstein: There is no second to that. Director Byrne has made a motion that it be referred back to the Law Department.

~~Commissioner Franklin: We have~~ the Law Department here. This ordinance has been prepared by reference to the Law Department.

Mayor Ellenstein: I would like to see that New York ordinance. There is a grave question in my mind as to its constitutionality. There is a grave question in mind about the constitutionality. It won't serve any purpose to have it upset by the courts.

Mr. Harrison: I know about that ordinance but I am not qualified to speak on the constitutionality. I am not an attorney.

Mayor Ellenstein: I understand that, but I would like to see the New York ordinance.

Mr. Harrison: We can get that. I know it was upheld in the courts.

Mayor Ellenstein: Is there any objection to deferring it for a week?

Commissioner Murphy: Why not refer it to the Law Department for a

week and give us an opportunity to clear up that statement.

Mayor Ellenstein. There ought to be a copy of the New York ordinance sent to each Commissioner, and with a statement as to how far it has gone in testing its constitutionality in New York courts.

Is there any objection to that?

Commissioner Franklin: No.

Commissioner Murphy: I so move you, that it be deferred for one week, and that it be re-submitted to the Law Department with the understanding that the Law Department will furnish each Commissioner with a copy of the New York modification of the sanitary code or ordinance, which would be tantamount to an ordinance under our system of government, with a statement from the Law Department as to how far it has gone in the upper courts in New York on testing the constitutionality.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners B y r n e, Franklin, Murphy, Mayor Ellenstein

Mayor Ellenstein: The matter will be deferred for one week and then there will be action one way or another by the city, and if it is introduced there will be an opportunity for some more work for you, Mr. Vail, at the subsequent hearing.

WHEREAS, at a conference of the Board of Commissioners, held on February 21, 1940, Mr. Charles Shankroff, of 80 Court Street, Newark, presented a petition in which he asked for the refund of erroneous and illegal charges collected in connection with certain tax sale certificates held by The City of Newark, copy of which petition is attached hereto and made a part hereof. The gist of Mr. Shankroff's complaint is that he was compelled to pay Ten dollars (\$10.00) in costs in connection with the redemption of a tax sale certificate, which Ten Dollars (\$10.00) represented a fee for legal services rendered by one Mr. Garrigan, an attorney, who apparently had been authorized by the Director of the Department of Revenue and Finance to proceed to foreclose for the City the tax lien held by the City under the said tax sale certificate; and

WHEREAS, it is the opinion of the Corporation Counsel that the employment of attorneys by the Director of the Department of Revenue and Finance for the purpose of foreclosing tax certificates is contrary to law, the statute providing that the Corporation Counsel is the attorney for the City in all such matters;

THEREFORE BE IT RESOLVED, by the Board of Commissioners of the City of Newark, that the Director of the Department of Revenue and Finance be and he is hereby notified that the employment of attorneys for the purpose of foreclosing tax sale certificates held by the City, or doing any legal work in connection therewith, is contrary to law, and that the appointment of such attorneys without the consent of the Corporation Counsel is illegal and no compensation can legally be paid to such attorney or attorneys who are illegally engaged for the said work; and, consequently, charges for such services of such illegally appointed attorneys may not properly be made a part of the cost chargeable against the taxpayer on redemption of the tax sale certificate; and

BE IT FURTHER RESOLVED, that the Director of the Department of Revenue and Finance be and he is hereby directed to furnish to the Corporation Counsel the names of all attorneys who have been authorized by him to furnish any services in connection with the foreclosure of tax sale certificates held by the City of Newark, and upon receipt of that information the Corporation Counsel be and he is hereby directed to give notice to the said attorneys that they have no authority to represent The City of Newark in any matters involving legal work or legal proceedings in relation to said tax sale certificates, and that they have no authority to retain in their possession any tax sale certificates or any memorandum which constitutes records of The City of Newark; and that

they are directed to return the said certificates and other records of The City of Newark immediately to the City files, and are further noticed that they are not entitled to any compensation for any services furnished by virtue of any such appointment or appointments illegally made as aforesaid.

The Board of Commissioners of

H. S. REICHENSTEIN,
City Clerk.

Newark, N. J., April 10, 1940.

A regular meeting of the Board of Commissioners of the City of Newark, N. J., was held on the above date, in the Commissioners' Chamber, City Hall, Newark, at 11 A. M., Standard Time.

Present: Commissioner Byrne, Franklin, Murphy, Mayor Ellenstein; Acting Director Keenan.

Mayor Ellenstein: The Clerk will read the minutes of the previous meeting.

Commissioner Franklin: I move that we dispense with the reading of the minutes.

The roll being called the motion was declared adopted by the following votes:

Yeas: Commissioners Byrne, Franklin, Murphy, Mayor Ellenstein.

Mayor Ellenstein: If there is no objection we will proceed with the resolutions pertaining to the Budget.

Commissioner Murphy offered the following resolutions:

WHEREAS, the Budget for the City of Newark for the year 1940 was approved on March 6, 1940; and

WHEREAS, said Budget was amended by resolutions adopted April 3, 1940; and

WHEREAS, the Commissioner of

Local Government has ordered certain changes in the said Budget;

THEREFORE, BE IT RESOLVED, By the Board of Commissioners of the City of Newark, that the changes as ordered by the Commissioner of Local Government be and the same are hereby accepted and approved; and

BE IT FURTHER RESOLVED, That the following statements of revenues and appropriations shall constitute the local budget for the year 1940.

Vincent J. Murphy
M. Ellenstein
Pearce R. Franklin

The roll being called, the resolution was declared adopted by the following votes:

Yeas: Commissioners Franklin, Murphy, Mayor Ellenstein.

Nays: Commissioner Byrne.

BE IT RESOLVED, By the Board of Commissioners of the City of Newark, that the Explanatory Statement in the 1940 Budget be revised as follows:

LOCAL BUDGET EXPLANATORY STATEMENT

The 1940 Budget estimate requires that \$37,749,140.30 be raised by taxation as compared with \$37,713,681.15 for the preceding year as shown in the following tabulation:

	1940	1939
Total Budget Appropriations.....	\$48,981,250.53	\$44,101,815.15
Total Anticipated Revenues	17,400,319.76	14,764,342.59
Excess of Appropriations over Revenues	31,580,930.77	29,337,472.56
Reserve for Uncollected Taxes	6,168,209.53	8,376,208.59
Amount to be Raised by Taxation.....	\$37,749,140.30	\$37,713,681.15

Our Miscellaneous Revenue anticipations for 1940 include \$3,164,890.97 for gross receipts and franchise taxes, in accordance with statutory provisions.

Our Special Revenues include \$1,-375,000.00 from the State Financial Assistance Commission to be applied to Emergency Note Repayment and various surplus accounts totalling \$1,-845,335.00.

The decrease in anticipations from delinquent taxes this year is partly the result of a reduction in the amount of outstanding delinquent taxes and partly the result of a decrease in the personal property tax collection percentage, offset to some extent by an increase in the real estate delinquent tax collection percentage.

The net collection percentage for current taxes was increased to 83.6% in 1939 from 77.8% in 1938. The improved collection percentage is responsible for the decrease of \$2,207,-999.06 in the Reserve for Uncollected Taxes.

The 1940 budgetary appropriations of the five City Departments are \$591,285.27 greater than in 1939 after eliminating the direct relief appropriations.

The mandatory appropriation for Debt Service requires an increase this year of \$114,882.58. The Local School requirement has been increased \$475,000.00.

The tax rate includes 33 points by reason of the reduction in ratables of \$50,700,125.00 due to the Equalization and Revaluation Program. This increase in the tax points will, in the majority of cases, be offset by the decrease in ratables.

LOCAL BUDGET EXPLANATORY STATEMENT

The 1940 Budget estimate requires that \$37,749,140.30 be raised by taxation as compared with \$37,713,651.92 for the preceding year as shown in the following tabulation:

	1940	1939
Total Budget Appropriations	\$48,981,250.53	\$44,101,785.92
Total Anticipated Revenues	17,400,319.76	14,764,342.59
Excess of Appropriations over Revenue.....	31,580,930.77	\$29,337,443.33
Reserve for Uncollected Taxes	6,168,209.53	8,376,208.59
Amount to be Raised by Taxation	37,749,140.30	\$37,713,651.92

Our Miscellaneous Revenue anticipations for 1940 include \$3,164,890.97 for gross receipts and franchise taxes, in accordance with statutory provisions.

Our Special Revenues include \$1,375,000.00 from the State Financial Assistance Commission to be applied to Emergency Note Repayment and various surplus accounts totalling \$1,845,335.00.

The decrease in anticipations from delinquent taxes this year is partly the result of a reduction in the amount of outstanding delinquent taxes and partly the result of a decrease in the personal property tax collection percentage, offset to some extent by an increase in the real estate delinquent tax collection percentage.

The net collection percentage for current taxes was increased to 83.6% in 1939 from 77.8% in 1938. The improved collection percentage is responsible for the decrease of \$2,207,999.06 in the Reserve for Uncollected Taxes.

The 1940 budgetary appropriations of the five City Departments are \$591,285.27 greater than in 1939 after eliminating the direct relief appropriations.

The mandatory appropriation for Debt Service requires an increase this year of \$114,882.58. The Local School requirement has been increased \$475,000.00.

The tax rate includes 33 points by reason of the reduction in ratables of \$50,700,125.00 due to the Equalization and Revaluation Program. This increase in the tax points will, in the majority of cases, be offset by the decrease in ratables.

Commissioner Murphy offered the following resolution:

WHEREAS, on an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

Application of Lewis L. Ransom (Columbian Laundry, owner); for the construction and operation of an engine and boiler room for laundry in a 2nd business district; premises 272-278 South Twelfth Street;

AND the matter having been considered by this Board;

IT IS RESOLVED, by the Board of Commissioners of the City of Newark, that said recommendations of the Board of Adjustment be and the same are hereby approved.

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application?

Mr. Frederick Archer, 88 Mt. Vernon Avenue, Irvington, N. J.: I represent Mrs. Isabella Anuswith of 281 South 11th Street.

Mayor Ellenstein: Are you representing the objectors?

Mr. Archer: That is right. I believe some of the objectors wish to be heard here.

Mayor Ellenstein: Suppose that you present them in the order that you want them. Do they want to be heard or do you want their presence recorded?

Mr. Archer: They want their presence recorded.

I believe that you are familiar with what was put through before the Board of Adjustment. We have 85 signatures of owners, taxpayers and tenants, and I don't know whether you are familiar with the fact that we also have a resolution out, a special committee that has investigated plants suggested by the Board.

Mayor Ellenstein: A committee of your objectors?

Mr. Archer. That is right, to see

the findings of the particular plants that were visited, just what fault we had found with that plant. I do not know whether you wish to hear the objectors first.

Mayor Ellenstein: We hear the objectors first, not the petitioners.

Mr. Archer: Well, the property owners throughout, within 200 feet of the company, the laundry, are definitely opposed to the expansion of the Columbian Laundry. The reasons as have been given to the Board of Adjustment were that the Columbian Laundry really is a nuisance, a health hazard which has been complained about many times for the past, I would say, three or four years ago? Isn't that so?

A voice: About two years ago.

Mr. Archer: The property owners have never been informed, and this is the first time in thirty or forty years that some of these property owners have been informed of the proposed expansion.

Mayor Ellenstein: Was it rejected the last time?

Mr. Archer: There were no objections:

Mayor Ellenstein: Wasn't there an application about two or three years ago to expand this laundry?

Mr. Archer: Nobody was notified.

Mayor Ellenstein: Wasn't it rejected at that time?

Mr. Archer: Not that I know of. The plant is much larger than it has been.

Mr. Russell B. Rankin (Board of Adjustment): Ever since 1928 it has been a state law, Mr. Mayor, that all property owners be notified.

Mayor Ellenstein: Was there an application, Mr. Clancy, by your client some time ago to expand?

Mr. John J. Clancy (Representing Columbian Laundry): I have just asked Mr. Hering and he said he has no recollection of having made an application in the last two years. There was an application in 1929.

Mr. Archer: There was an application to build up a tin shed in back of 279-281 South 11th Street, and according to law those within 200 feet are supposed to be informed about it.

Mayor Ellenstein: When you say that a shed was put up, that was put up about 1936 or 1937.

Mr. Archer: Only two property owners were informed, Mrs. Muller of 279 South 11th Street and Mrs. Anuswith of 281 South 11th Street.

Mayor Ellenstein: However, they were informed of this.

Commissioner Murphy: I think it might be advisable, on the part of Commissioner Byrne, sooner than have all these ladies come down, if it is not ready next week to have these ladies notified.

Mayor Ellenstein: There is no part in having you ladies down here for the greater part of the day.

Commissioner Byrne: I will notify Mr. Grimshaw and he will notify them.

Mayor Ellenstein: The motion is made and seconded that the matter be referred to Director Byrne to follow the procedure as outlined.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Byrne, Murphy, Mayor Ellenstein.

The City Clerk: There is referred to this Board over the signature of Russell B. Rankin, Secretary of the Board of Adjustment, two matters for a hearing date to be set one week from today. There is no suspension of rules.

The following communication was received and read:

Bidders are invited to name the rate of interest which the bonds are to bear. No proposal will be considered naming a rate higher than the lowest rate named in any legally acceptable proposal received by the Director of the Department of Revenue and Finance. If two or more proposals name the lowest interest rate, the bonds will

be sold to the bidder offering to pay the sum of \$1,350,000 and to accept therefor the least amount of bonds, the bonds to be accepted being those first maturing, and if two or more of such bidders offer to accept the same least amount of bonds, the proposal of the bidder offering to pay therefor the highest additional price will be accepted. The price for which the bonds may be sold cannot exceed \$1,351,000.

The purchaser must pay accrued interest from the date of the bonds to the date of delivery. No interest will be paid upon the deposit made by the successful bidder. The right is reserved to reject all bids.

Proposals should be addressed to the undersigned Director of the Department of Revenue and Finance of The City of Newark, New Jersey, and enclosed in a sealed envelope marked on the outside "Proposal for Bonds." Bidders must at the time of making their bids deposit a certified or cashiers' or treasurer's check for \$27,000, drawn upon a bank or trust company for such amount, to the order of the City of Newark, to secure the City from any loss resulting from a failure of the bidder to comply with the terms of his bid. Checks of unsuccessful bidders will be returned upon the award of the bonds.

The successful bidder will be furnished with the opinion of Messrs. Reed, Hoyt, Washburn & Clay, of New York City, that the bonds are valid and binding obligations of the City of Newark.

Bidders in submitting their bids, must use the bidding forms which will be furnished by the undersigned upon request.

By order of the Board of Commissioners.

Dated. May—, 1940.

WHEREAS, the Public Buildings Administration, through the Federal Works Agency, has offered for sale the property known as the Old Post Office Site, located on Broad Street between Academy Street and Raymond Boulevard, under two plans known as Option "A" and Option "B" and has received bids under Option "B"; and,

WHEREAS, Option "B" permits the property to be paid for over a period of fifteen (15) years before title passess to the successful bidder; and,

WHEREAS, under the term of said Option "B" the successful bidder would have paid only a small percentage of the purchase price at the end of said fifteen (15) years; and,

WHEREAS, the bid received under Option "B" was for Two Million Fifty Thousand Dollars (\$2,050,000.), the acceptance of which bid might deprive the City of Newark of taxes on the land in question, during the said fifteen (15) years in an amount of approximately One Million Five Hundred Thousand Dollars (\$1,500,000); and,

WHEREAS, the said property is one of the most valuable business sites in the City of Newark; and,

BE IT FURTHER RESOLVED, That if the Public Buildings Administration decides to sell the property under Option "B," that the terms of Option "B" be changed so that

- (b) If the property be sold under the fifteen (15) year plan, that the Public Buildings Administration specify in its agreement that the successful bidder be required to pay the full taxes on the land and improvements, from the time of the acceptance of the offer; and

BE IT FURTHER RESOLVED, That in the event that the Public Buildings Administration refuses to comply with the above request, that the City of Newark be permitted to purchase the said property on a plan similar to the one under which the Tide Water Terminals at Port Newark was purchased by the City of Newark, from the United States Government; and

In the case of Messrs. Gevus and Puorro, they were on leave of absences, without pay, when the budget of the Alms House was prepared and they were not considered for increases at that time. However, they have been returned from said leave of absences and Mr. Patrick J. White, Superintendent of the Alms House, feels they should be increased at this time. Mr. Jacob DeLucca was omitted in error from the previous resolution presented to the City Commissioners on Wednesday, April 17, 1940, and I am desirous that he receive this additional money at this time, which represents maintenance which he is entitled to and does not receive.

WHEREAS, on an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

Application of Helen S. Loboda and Irene V. Dziuban, owners; for the removal from No. 54 Hawkins Street of a dwelling and store building to be erected on premises 55 Lentz Avenue, in a 3rd residence district;

AND the matter having been considered by this Board;

IT IS RESOLVED, by the Board of Commissioners of the City of Newark, that said recommendations of the Board of Adjustment be and the same are hereby approved.

Acting Mayor Murphy: Are there any objectors to this application?

Mrs. Nora Downey, 28-30 Horatio Street.

Well, I own this building 28-30 Horatio Street twenty-two years, I pay taxes, my dues, held it through fire and water up to this. I operate a little candy store, a livelihood for myself; I am a widow woman. I have one son married, doing for himself. I live in the back of the store. I cooperate with all these little children coming in and out of my little store. I buried my husband two years ago. All these children go to Hawkins Street Public School, their mothers pass. Today this tavern coming down, then this housing unit. I am thirty-five years in this neighborhood, it was there before I came and I don't know how long before that, it is an old frame building. Well, there is a two-car garage there which they will build and a store also to be erected for dance hall and cafeteria and tavern. And I object, I will lose my tenant on the side that is going to be erected.

Acting Mayor Murphy: What street are you on?

Mrs. Downey: I am on Horatio Street.

Acting Mayor Murphy: 28-30?

Mrs. Downey: Yes, sir.

Acting Mayor Murphy: That is where you operate the store now?

Mrs. Downey: 28. And then the 30 building is a four-family frame, contains families there with children. They object. All of them have signed the petition here they don't want this here; all the neighbors have. Let them have a four-family on this lot, fill it up with children. We have to fill up the land and of course we have no objections to that. I am a widow, I can't live there; my two children are going to get out, it annoys children.

Commissioner Byrne: There are only three of us present and two out

of three pass it Don't you think it might be better for you to come back next week?

Mrs. Downey: Certainly. I would come back, your Honor. I will come back.

Commissioner Byrne: How does counsel feel about it?

Mr. William H. Parry: This is a parcel that is in the block which was taken over by the Housing Board. The sooner we get action from the city the sooner they can make arrangements here and go ahead with the whole plan. Does that amendment to the Zoning Ordinance relate to this?

Commissioner Byrne: That does not relate to this.

Mr. Parry: Is there an amendment before you at the same time for the removal of the building for the change of the whole zone?

The City Clerk: Yes, there is an amendment on first reading for a change in the Zoning Ordinance.

The City Clerk: That ordinance does not change any district.

Mr. Parry: Is it necessary to have a change of the ordinance to carry through this plan to move this building from the present site to the proposed site?

The City Clerk: I don't think so.

Mr. Parry: It is not necessary then?

Acting Mayor Murphy: No, it is not necessary.

Commissioner Byrne: I move you that this be deferred for one week.

Commissioner Franklin: I second the motion.

The roll being called, the motion

was declared adopted by the following votes:

Yeas: Commissioners B y r n e, Franklin, Murphy.

If anybody present wants to be recorded as opposed I will put their name on record, they may not be able to be here next week.

(Mrs. Bridget Lawton, 47 Lentz Avenue, had her name recorded as being an objector.)

WHEREAS, on an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

ditional grade of milk, cream or milk products, and an additional fee of fifty cents (50c) shall be paid for each different grade of milk, cream or milk product, before any such additional license is granted; provided, however, all provisions of this ordinance are fully complied with. Only one such additional fee of fifty cents (50c) shall be charged for each additional grade of milk, cream or milk product regardless of the number of plants, stores, stations, vehicles or wagons of such licensee.

The roll being called, the resolution was declared adopted by the following votes:

Yeas: Commissioners Franklin, Murphy, Mayor Ellenstein.

Commissioner Byrne not voting.

Commissioner Byrne: I was asked to make a report last week on the power house. I would like to say that I have the figures at hand which I would like to consolidate and present to each one of the commissioners immediately after the meeting so they can take action on it next week when I will introduce a resolution, if it is proper at that time, to change the present procedure in the power house from the way it is being run now, by contracting for the power. But in the interim, I will present my reason for so doing.

Mayor Ellenstein: You will submit that to each one of the Commissioners,—a memorandum, you mean?

Commissioner Byrne: Yes.

Mayor Ellenstein: All right.

Commissioner Byrne: I was also asked to make the report on the Columbian Laundry before this Board, too. I would simply like to say that I made that investigation and I have presented the report to Mr. Schaum of the Smoke Abatement Bureau and of the independent engineer that we brought in to make a survey. That will come up for action today, too, I believe.

The City Clerk: In a few minutes.

Commissioner Byrne: Are we going to go now to zoning matters?

Mayor Ellenstein: Yes.

Commissioner Byrne. Is this the time to introduce motions?

The City Clerk: In a few moments.

Commissioner Byrne: Is there anything going to come up after the zoning matters?

The City Clerk: More zoning matters, and then balloting.

Commissioner Byrne: Well, in the regular order of business I received a report today from the Law Department on the powers of the Mayor in the Department of Public Safety, and apparently it is legal—being continued now.

However, I would like to move today, Mr. Mayor, that the Director of the Department of Public Safety be filled by the commissioners from the present commissioners now serving. I present that as a motion.

Mayor Ellenstein: I don't know that you can do that legally. You mean be filled from the present commissioners? That means one commissioner would have two departments. I don't know that you can do that legally. What makes you think you can do that legally?

Commissioner Byrne: Well, I would like to present the motion. I think it can be done.

Mayor Ellenstein: We ought to find out before presenting the motion whether it is a legal course of procedure.

Commissioner Byrne: Then we will go along with a selection.

Mayor Ellenstein: You might make a motion that it be referred to the Law Department to determine whether one Commissioner can hold office in two departments. That would be the most practical thing

Commissioner Byrne: My idea was that it be filled today from the present four, and when the balloting takes place, perhaps we could elect a fifth commissioner to take the other department.

Mayor Ellenstein: What do you mean?

Commissioner Byrne: Well, we will follow with this balloting immediately after.

Mayor Ellenstein: What difference does that make?

Commissioner Byrne: I would like to see the department filled by one of the present commissioners.

Mayor Ellenstein: So would I—Present commissioners?

Commissioner Byrne: Yes.

Mayor Ellenstein: What would happen to the vacancy of that commissioner?

Commissioner Byrne: We can fill that here today.

Mayor Ellenstein: Fill that here today? You are certainly an optimist. I hope we do fill it today, but before you proceed on anything like that, one commissioner cannot, I do not believe, occupy two offices.

Commissioner Byrne: I am willing to have the legality of this approved by the Law Department if there is such a question, but I do offer it as a motion, and the motion has been referred to the Law Department.

Mayor Ellenstein: You mean you are making a motion—

Commissioner Byrne: I make a motion if it is the opinion of the Commission it is not legal, that it be referred to the Law Department, I am

willing to have it referred to the Law Department.

Mayor Ellenstein: I say I do not believe it would be legal for one Commissioner to hold office in two departments—not formally hold office in two departments. As I understand the act, there are to be five commissioners, under the Walsh Act, and certainly I do not know of any provision in the act which gives authority to one commissioner to hold office in two departments. There is a provision in the act which says the Mayor shall supervise another department.

Commissioner Byrne: What I wanted to have is the acting director transferred to the other department just as it is now.

Mayor Ellenstein: What do you mean?

Commissioner Byrne: You have an Acting Director of Public Safety.

Mayor Ellenstein: Yes.

Commissioner Byrne: The Acting Director could be transferred over to my department, the department of Parks and Public Property.

Mayor Ellenstein: Now, we are getting at something.

Commissioner Byrne: You mean—

Mayor Ellenstein: You mean you want the offer that you go into the Department of Public Safety?

Commissioner Byrne: No, any one or the four.

Mayor Ellenstein: Then the Acting Director goes. The way to do that is just present the name of the Acting Director or anyone else and let the Commission determine. In the meantime, the Department of Public Safety is, I believe, being taken care

of, and the very principles that you oppose are being carried out now. I am putting in a lot of hours in an effort to straighten out the department of Public Safety, and particularly the Police Department, and I think I am making some headway, at least. So there isn't anything—I don't know of any suggestion you have that will be an improvement upon it.

Commissioner Byrne: I would just like it so we have it agreed today that one of the commissioners be placed in charge of the department of Public Safety, be made director of Public Safety.

Mayor Ellenstein: What would happen to the department he is in?

Commissioner Byrne: Put an acting director in there.

Mayor Ellenstein: As what?

Commissioner Byrne: Whatever department it is.

Mayor Ellenstein: I offered that suggestion to you a long time ago, offered the suggestion and it was turned down by you and Director Murphy. I offered to leave your deputy in the department of Parks and Public Property and that I would supervise that, and that was turned down. It seemed to me the most logical thing to do, because the Department of Parks and Public Property certainly is no where near as important as the Department of Public Safety. I was not looking for this job.

Commissioner Byrne: Can't we transfer one of the present commissioners to the Department of Public Safety?

Mayor Ellenstein: You can do a lot of things; you can shake all the commissioners up in a bag and have somebody blindfolded to pull one out. What is to be gained by it? If you.

have any suggestion to make as to filling of the vacancy,—fine.

I have offered six names. Certainly, there ought to be one man among the six—I offered Democrats and Republicans as well, even though I am a Democrat. There should be one man among those six who is qualified to administer the affairs of the Department of Public Safety.

Commissioner Byrne: I would like to have my motion put.

Mayor Ellenstein: What motion do you want to present?

Commissioner Byrne: My motion that the Department of Public Safety be filled.

Mayor Ellenstein: Motion that what?

Commissioner Byrne: Motion that we transfer one of the commissioners to the department.

Mayor Ellenstein: Which one of the commissioners?

Commissioner Byrne: Any one, to the Department of Public Safety, Director of Public Safety.

Mayor Ellenstein: No. That is certainly a very indefinite motion.

Commissioner Byrne: We can agree on one after.

Mayor Ellenstein: I don't know—you mean transfer one commissioner from one department to another?

Commissioner Byrne: Yes.

Mayor Ellenstein: That is the very proposal I made, except I specified who should be transferred. I suggested you go into Revenue and Finance and Director Murphy go into Public Safety, and I was turned down. Now you are just making a motion

that one of the commissioners be transferred, without stating which one of the commissioners it would be. I may want to vote for Director Franklin being transferred and may not vote for somebody else being transferred. I would not vote, for example, if the motion was made that you be transferred from Parks and Public Property to Safety. I can say to you now that I would vote against it. So if you will make it specific, we can do it intelligently.

Commissioner Byrne: If we vote on this and it is passed, we can decide among ourselves.

Commissioner Franklin: I won't take it unless I can get band concerts and the dog pound with it.

Acting Director Keenan: Before that motion is put, might I say a word?

I would like to ask whether or not there in any question with regard to my honesty or my ability to fill that position in the seven months I have been temporarily filling it?

Commissioner Byrne: I don't think so.

Acting Director Keenan: I want it understood, and clearly understood, when I took that position I took it at the request of the City Commission by resolution number 5277, dated September 13, and I feel I have served, and served honorably, and served well in the seven months I have been in there.

Now, there is apparently a controversy on, a controversy upon which one man gave two different opinions upon one point at issue, and I do not feel that that point is thoroughly settled even as yet.

Mayor Ellenstein: What point is that?

Acting Director Keenan: As to the decision here today. I just got my copy; I was not even extended the courtesy of having received a copy until I requested it here this afternoon. But it seems to be two opinions, in accordance with the newspaper reports, on one point.

Mayor Ellenstein: What two points?

Acting Director Keenan: I want to know whether or not there is any question about my honesty in serving during those seven months, or my inability to serve. I want it understood when I did go down there I entered what was surely a mess.

Mayor Ellenstein: Who are you asking that of, me?

Acting Director Keenan: Of the Commission as a whole, that put me in there.

Mayor Ellenstein: There is no question about your integrity, I did not hear anybody question your integrity. I do not think that enters into it at all.

Acting Director Keenan: Is there any question then about anything?

Mayor Ellenstein: Yes, there is a question in my mind about something or I wouldn't supervise the department now.

Acting Director Keenan: Can I learn what that is?

Mayor Ellenstein: Yes. The question is this: Deputy Chief Brex was put in as Deputy. He made certain recommendations to you that were not followed out.

Acting Director Keenan: They don't necessarily have to be.

Mayor Ellenstein: Of course they don't.

Acting Director Keenan: That is the point.

Mayor Ellenstein: Just a minute. Wait until I finish. You asked for my reasons, I will give them to you. The Police Department was falling into disrepute, the morale was low.

Acting Director Keenan: Only during those seven months?

Mayor Ellenstein: Will you wait until I finish?

Acting Director Keenan: Only during those seven months it fell into disrepute?

Mayor Ellenstein: Will you wait until I finish? You just talked about the courtesy not being extended to you by not sending you a copy of the opinion. Now, you might wait until I finish.

I heard it from all sides. From all sides. It was common gossip on the street that there was lack of discipline.

Acting Director Keenan: For years that has been gossip.

Mayor Ellenstein: Are you going to let me finish or do you want to talk?

Acting Director Keenan: Go ahead.

Mayor Ellenstein: Of course, if you are going to insist on interrupting me there is no need of my answering you. I have been very courteous to you at every turn. There is no reflection upon you at all as to your integrity. But the fact remains that Deputy Chief Brex was put in there for the purpose of administering the Police Department properly.

Acting Director Keenan: That wasn't my understanding.

Mayor Ellenstein: Well, now, that is at variance—

Acting Director Keenan: You cannot have two Directors in one division.

Mayor Ellenstein: Now, you understood when you put Deputy Chief Brex in as your deputy, the tacit understanding we had was that he would run the Police Department.

Acting Director Keenan: Oh, no; he would assist. I thought Brex being the oldest deputy, there could have something learned through Brex, some assistance. There cannot be two directors. Nor would I have accepted the position under those conditions. I am fully capable of carrying out the provisions of that division.

Mayor Ellenstein: Are you going to let me finish or do you insist on interrupting?

Acting Director Keenan: I thought apparently you were finished.

Mayor Ellenstein: Apparently I am not. And when I am finished, I will tell you. Now, will you please keep quiet until I finish? I have asked you now three times.

Acting Director Keenan: Go ahead. Don't stop to ask me.

Mayor Ellenstein: Deputy Chief Brex was put in there. He made certain recommendations to you. There were no uniform men out at night. And those recommendations having been made to you, you didn't follow them out.

Acting Director Keenan: Never put uniformed men out at night?

Mayor Ellenstein: Do you persist—

Acting Director Keenan: I am just trying to follow you there.

Mayor Ellenstein: I know you are trying to follow me. Don't be cute about it. This isn't supposed to be funny, if you think it is. I am not laughing about it. Now, you asked for this and you are going to get it.

Acting Director Keenan: Go ahead.

Mayor Ellenstein: So that instead of taking the guidance of a man who is respected as being a good police official, you took the guidance of none other than Durkin, Tom Durkin, who was president of the P.B.A., and you know it as well as I. Instead of helping the policemen—I am talking about the policemen, every single policeman that is on the force in the city, because when they fall into disrepute it affects every man in the department. And while some of them may not agree with me, eventually they will find out that it is to their interest that this is being done. When a policeman is held in high regard it reflects credit on every man on the force. If on the other hand, if something happens in the Police Department, it reflects to the discredit of the men that are doing an honest job and are willing to do an honest job; they are discredited.

Now, you were in there for seven months, and conditions became worse and worse. Any recommendation that Deputy Chief Brex made was not followed. You never consulted any superior officers like is being done now. You know; you are in attendance. I don't know anything about police work, but I am willing to take the advice of all divisional heads. You have observed during the period that I supervised the Police Department, that I have called all divisional heads in; each one has made recommendations; we then discussed them; and when we arrive at a conclusion, that each divisional head, men who have had years and years of experience in the Police Department, agree that this is the best procedure to follow, then

such an order goes out. That is the way it is being conducted now. That, I believe, is a practical way that will insure to the benefit of all policemen, all superior officers and to the benefit of the city at large.

Now, when I undertook to supervise the Police Department and said I wanted a conference, and it was publicized that there would be some changes in the Police Department, there would be a replenishing of the night patrol force, which was sorely needed, you then got busy the day before and you hurriedly brought in a report on it you were going to put 160 men out on night patrol.

Acting Director Keenan: 130. I gave you a copy of the survey.

Mayor Ellenstein: 130. I am mistaken, then. 130 men. For seven months you didn't put one man out on night patrol, but when I started to supervise it, then you hurriedly got busy and threw together a report; and, as Police Commissioner Kaas said himself, that report was not complete. When I asked him, "What do you mean by 'not complete'?" do you mean it has not been given careful thought and consideration?" and he said yes. That is what Commissioner Kaas said.

You said that you had just conferred with Commissioner Kaas and that is what you based the report on.

On the other hand, I undertook to confer with all those men, the divisional heads, who, as I have said, have had long years of experience.

You cannot raise a question when you sat back placidly for seven months when it was common gossip on the street that the Police Department was shot as to its moral, as to discipline; when there was newspaper publicity about the effect. And when it was to the effect that Mr. Durkin, president of the P.B.A. was dominat-

ing you and you were looking after his advice. Now, I have never mentioned this before, either; I can show you letters in my office directing it to my attention that policemen would go out and sell tickets to tavern owners throughout the city, and in several instances they were told, "I don't know where the orders came from." They threw a bundle of tickets on the bar and said, "I will be back for the money later." Now, those tickets, of course, carried your name. They purported to be tickets being sold by an organization which carried your name. Now, surely, those things did come to your attention. You know that there is a state law against anything like that in the Police Department. That didn't help the moral of the department; that didn't help the discipline; and it didn't reflect any credit upon you, either, to do that; and it didn't help any policeman in the department and it didn't help any of the Commissioners, because if anything happened in the Police Department, a scandal, it would be a reflection not so much on the rest of the Commissioners, but particularly upon me, because under the Walsh Act I am charged with supervising the department. And while the law is not clear, certainly the Legislature must have had in mind that it was in a contingency like this, an emergency, that the Mayor of the City was to supervise a department. So I had no other alternative. It was no reflection upon you. You sat by placidly for seven months, and all of a sudden you woke up and found 130 men that could be put out on night patrol. Of course, the other divisional heads disagreed with you, or most of them. Up to date we have put out 76 men from the radio cars, and other patrols and details, and we put them on nights. And I have taken the recommendation of the divisional heads, not my recommendation, as to who goes out there. And I made each divisional head responsible for everything that occurs under him.

The Police Department is a quasi-

military organization; and when the time comes that our citizens cannot have faith in the Police Department we are not going to have a city very long, not a city that we can look to with credit, as we should.

Those are the things that I have done. And I did it because I had to, not because I wanted to. I wanted to preserve myself, and I went in there and did those things.

Now, there is no reflection on your integrity; we all have our own views. But the fact remains that for seven months you did nothing. Something had to be done. The reports were coming that you were dominated by Mr. Durkin, that you were not listening to the advice or suggestion of superior officers; and for that reason I had to step in to preserve the situation. And I am trying to do the best I can under the circumstances without hurting any man, and without any vindictiveness towards any person in the Police Department or anywhere else. I am leaving it to each divisional head. If any of those divisional heads are vindictive towards any man, I will endeavor to correct it by giving everybody a fair and square shake. Now, I cannot be expected to do any more. I am doing all I can under the circumstances, but particularly I am relying and leaning upon the advice of the Chief of Police, the Deputy Chiefs, the inspectors who control all these divisions. Further than that, in order to properly discipline, not by any tactics that would be repulsive to any policeman who wants to do his duty, I have restored the power to the Chief of Police so he has the authority to suspend a man. Now, that was not aimed at any man in particular.

If we are going to have discipline in the Police Department we must give the power to those men under whose charge these men come, and in that way I believe we will get discipline and it will be to the advantage

of everybody, policemen and citizen alike.

Acting Director Keenan: Now, are you through?

Mayor Ellenstein: I am through.

Acting Director Keenan: All right. Now, you say for seven months I set back placidly. Let me tell you, and I think it is well understood by you, that when I took over that proposition over there there were some forty or forty-two members of the department mixed in what was called the towing racket scandal. I inherited that condition and I inherited all of the supposed low morale, and I inherited all of the supposed lack of discipline, and I inherited records in the office of the Director of Public Safety which showed that there are 164 patrolmen. And I did not sit back placidly, because I was only there week to week. I am only there now week to week. I didn't know what jurisdiction I had until that was questioned by the Prosecutor with my right then to proceed with the hearings in the supposed towing scandal, which I did do, and I went through all of those hearings which were left by my predecessor, Leo Cluesmann; and I did not hesitate to sit and hear those cases.

And then, while they are not cleaned up yet, there is no delay on my part. The delay is now on the lawyer that represented the defendants in the trial. So that was not sitting back placidly. And if we had 164 men on our records, as can be verified by the Executive Clerk, Sam Finkelstein, why weren't some of those 164 patrolmen patrolling? And we had one of the inspectors in charge of the precincts under whose jurisdiction that responsibility rested. So if that condition existed it existed not through any fault of the Acting Director; and it was not within a day or two before the conference was held that we went on with the survey.

And with reference to your remarks about Tom Durkin, I say this to you, and through you to the City Commission, and through the Commission to anybody, that I was not being in any way dominated by Tom Durkin or anyone else in the Police Department. Tom Durkin never tried to dominate me, seek a favor or seek a transfer or seek anything else; and I defy you or anyone else to prove that. Tom Durkin may have his enemies from whom these anonymous letters may emanate. We all got them. I have gotten them for years, and so did my predecessors on the job. That does not say there is any basis of fact for those particular letters. Because somebody may not like Tom Durkin, he is the elected representative of the rank and file of the Police Department known as the P.B.A., and as such I gave him nothing more than the kind word the elected representative of the patrolmen is entitled to. I said the same to Captain Dory McNally, the elected representative of superior officers, neither of whom at any time made any attempt to dominate me, regardless of any accounts that appeared in the press.

Then during the course of all this I issued orders to my Police Commissioner, who is the ranking head of the department, and I said to him, "George, with regard to all of these remarks and all of these rumors on the streets, and all of this newspaper stuff about low morale and lack of discipline," I said "George, what is there to this? I was born and raised in Newark, and we haven't got a Police Department like that. And if we have, we want to know it and know why; and if there is any condition that can be rectified, we will rectify it."

And I issued order to Kaas to issue orders to the department that at least twice a week the captains will patrol their precincts, which at that time had not been done. Now,

there is no harm in issuing an order to a captain to patrol his precinct at least twice a week.

Then on another occasion I said to Kaas, with regard to the supposed lack of morale and lack of discipline, I said, "Let us see if we cannot rectify that. And I want you to get reports either monthly, semi-monthly or at least some period of each month as to what each man is doing." Then lo and behold, on the Saturday after that order was issued, the police captains appeared in the office of Acting Chief Haller. He called Commissioner Kaas down, and they protested. And one of these inspectors was there with him, and his remarks were, "It looks to me like a Durkin order," when My God! poor Durkin did not know we had the order in mind. But you cannot help a guy making those kind of remarks. It had nothing to do with Durkin. They resented the fact a report would come in as to what each one was doing.

Then I said to Kaas before we ever dreamed of that conference on April 16, I said, "We will prepare a survey and see what everybody is doing, why patrolmen are not patrolling." The survey showed some 120 patrolmen in some precincts not patrolling. None at night. Now, why was that? It was a condition I inherited, and in all probability the condition has been going on for years. That I know nothing about. But we made an attempt to rectify that through this survey. And I showed you on that survey names and ages. The thought behind night patrolmen was younger men on the street. And I gave to you a complete survey. That first day you had the conference, on April 16, I gave you names and I gave you ages and I gave a record of the duties they were doing other than patrolling, and recommended that they be put out for patrolling. And what did you do with this survey? You had some notes. I was never given the survey. I was

never shown this survey by the temporary Acting Deputy. Anything to the contrary notwithstanding, I never saw the survey that was supposed to have been made by him. The only survey or only recommendation he might have made was to manipulate things over here in headquarters, and that was proven to you, yourself, on Tuesday, the 16th of April, when you didn't have a complete survey and I did, and when you only had notes about this building across the street.

You said to these different divisional heads, "I want you and you and you to survey your divisions to see whether we cannot get men or patrol."

And I said to you, "My survey is there complete in detail." And I have a copy of it here with the same names, the same ages and the same duties that they were doing. Now, it wasn't a day or two before that conference was called—but the most significant feature of this whole thing apparently is overlooked. On Friday, April 12, in the presence of three News reporters, when there appeared in the Newark News of that day an editorial that in one line in a sense criticized me for delaying the clean-up of the trials, I took exception to that one sentence in the editorial. Otherwise, it had nothing to do that was in a derogatory way. I was told then that was not the inference, but I took it to be the inference. And I said to the three members of that particular paper that I defied them,—and in the presence of those three men was Kaas, the Police Commissioner and Haller, the Acting Chief. And I said to them, "What are my orders to you? Raid anything that is raidable. We will raise the morale, we will raise the supposed lack of discipline." And that appeared in the News on Friday, April 12. With what hasty results? On the next morning, Saturday, April 13, I, with the other heads, received a letter that you were going to take over Monday, the

15th—follow the dates in sequence—Friday night, I said, "Raid anything raidable." Saturday morning a letter you are going to take over Monday, and you are going to have a conference Tuesday at 10:30. We were there. There must be some significance attached to that particular type of action when that statement was made. And I mean it: as long as I am going to be head of that department they can raid anything that is raidable. The lack of morale, if it does exist, might be due to the fact that the members of the police force are afraid to make certain arrests. And under my jurisdiction they never need be afraid to make any arrests.

I was born and raised in Newark, as was my wife, daughter and mother and father and sister, and my wife's mother and her four sisters and brothers, and we are not afraid.

Mayor Ellenstein: I don't know why you have to inject that. I wasn't born in China.

Acting Director Keenan: It is one means of trying to raise the morale. Don't be afraid to raid anything that is raidable, was my statement that brought it all about.

Mayor Ellenstein: Nobody is questioning your integrity, I am talking about your inactivity.

Acting Director Keenan: There was no inactivity; I have just proven it to you. I had to complete the trials first. I went into the survey and I issued orders prior to your taking over.

Mayor Ellenstein: Now, here is where we disagree. You know—I think you ought to know, if you don't know, that you would be closeted with Mr. Durkin in your private office while Deputy Chief Brex, who was your deputy and who was certainly familiar with police work, and who is respected for his police ability, sat

outside in your outer office. Now, Deputy Chief Brex told me that on a number of occasions. You and Mr. Durkin would be closeted there, and you completely ignored Deputy Brex for that entire period. Now, you say you had these police trials. Of course, it did take some time, but it certainly didn't take seven months.

Acting Director Keenan: They are not over yet.

Mayor Ellenstein: Well, please don't interrupt.

Acting Director Keenan: Don't say it didn't take seven months. They are not over yet.

Mayor Ellenstein: Please don't interrupt me. Please. Please.

Acting Director Keenan: Go ahead.

Mayor Ellenstein: You told me about your being born in Newark. That is fine. Please don't interrupt me. Now, during that entire period you know you completely ignored Deputy Chief Brex. I believe the Deputy Chief when he says that. I know he was at one point on the point of resigning and going back to his post and I induced him to stay there. Notwithstanding what you might say, I take his word for it, because I know he did come to me and said, "It is impossible for me to stay there. Mr. Keenan is in the inner room with Mr. Durkin and they confer there for hours at a time and I sit outside." That was Deputy Chief Brex's complaint. You talk about activity and no inactivity, I point this out to you as being a significant fact; ever since you went in there during the time you had been Fire Commissioner you were a member of the Safety Board. Now, the Safety Board is a group of which you are a member. Who is the chairman of that?

Acting Director Keenan: The Deputy is always the chairman.

Mayor Ellenstein: You were a member of that during that entire period that that has been in existence. They act like the business committee of a grand jury; any complaints that come in as to infraction of the regulations by policemen and firemen are sent to this Public Safety Board. That Board met every week, and finally every two weeks; but during the entire period you were in there it did not meet once. So that policemen who were cited for infractions of the rules and knew that they were being cited, not having heard of any disposition of it for seven months, felt as though they needn't pay any attention to their superiors. And even though you were Acting Deputy in the department, even though you were a member of the Public Safety Board, you didn't see that there was any meeting called a member of the Board or as Acting Director. Certainly that is inactivity. When I went and supervised the department and insisted that the Board meet, there had been an accumulation of fifty or more complaints.

Acting Director Keenan: No, there wasn't.

Mayor Ellenstein: Now, you didn't dispute it the day I said there were fifty or more complaints. Well, anyway, there were a number of complaints, weren't there?

Acting Director Keenan: Yes.

Mayor Ellenstein: And the Board found time immediately to go into those complaints, didn't it?

Acting Director Keenan: Sure.

Mayor Ellenstein: Why didn't you do it during the seven months you were there? Now, it must have come to your attention that tickets were being sold. That was common knowledge. Don't you think you should have put a stop to it as the Acting Director?

Acting Director Keenan I issued a statement.

Mayor Ellenstein: Do you want to wait until I finish?

Acting Director Keenan: You asked a question; you said, "Don't you think—"

Mayor Ellenstein: You can wait to answer. I know you issued a statement. But, however, you certainly knew who was behind the tickets; you knew the organization that was behind it. You know and I know, at least nobody ever sold tickets under the name of any director who was the head of the Department of Public Safety, because it is contrary to the law. Those are the things that put the Police Department in a bad light. And if the Commissioners sat around and did nothing about it, it would put the entire Commission, say that we countenanced it. I never had any objections—I don't care and I have no quarrel with you whether you have political ambitions or not. It didn't make any difference to me. But certainly, I want to protect myself.

It was only when the Public Safety Board did not meet for seven months, it immediately found time to meet after I went in there, and disposed of all these cases. And it was after Deputy Chief Brex had made all these recommendations to you several times during the period of seven months, there was no survey, no report by you; it was only when I went in there and undertook to supervise the department that you came out with a report, as you yourself admitted, as the result of a conference, not with Deputy Chief Brex—he was ill the latter part, the last six or eight weeks he has been ill—but five months before that he wasn't ill and you never conferred with him once. You never conferred with the Acting Chief of Police, you never conferred with the divisional heads to determine what was wrong with the Police De-

partment, to seek their advice. All you did, as you say yourself, you sought the advice of Police Commissioner Kaas. Now, I have no quarrel with Commissioner Kaas, the Police Commissioner. He hasn't had the experience of these other men. Certainly, his experience cannot match the cumulative experience of all these divisional heads. And everything works out very well, I think you will admit now, by the manner in which we do it, leaving it to each individual head to make recommendations, and then we ask each one if they have any suggestions or advice to give or any objections, and we finally arrive at an order which meets with the approval of all divisional heads. And while you do not agree with me, I know, and I am willing to take Deputy Chief Brex's word for it, that he did make recommendations to you, that he did sit outside while Mr. Durkin was inside conferring with you for hours, and that is the reason he wanted to go back to his old job of Deputy Chief. And I induced him to stay, believing he would be able to work in cooperation with you to put the Police Department on a plane where it rightfully belongs in the City of Newark.

Acting Director Keenan: Are you through again?

Mayor Ellenstein: Yes. And that concludes it after you are through.

Acting Director Keenan: Well, it don't conclude it until I answer it.

Mayor Ellenstein: After you are through.

Acting Director Keenan: With regard to my closing the door on Brex, I had more visitors in the seven months in that office than any of you other four, because I am here all day every day. And not only Durkin, but any other citizen, man or woman, was admitted into that office. And I want to tell you, I was kept pretty busy. And I never closed my door on

Brex or anyone else. His door was closed more often than mine. He has an office there, not just adjacent to mine, which I wanted to have him at the start. I said, "Frank, why don't you put your desk here where Whalen is?" But he preferred to be in the rear. My door was never closed to anybody. If there ever was an open door policy it has been in that office in the last seven months.

And with regard to Commissioner Kaas, he is the ranking head of the department, being the Commissioner. and he has some thirty-seven years experience, during which time he must have learned something about the Police Department. And again I will say with regard to Kaas and the crew under Kaas, that was the only real crew that made any real raids, but that was smashed. All right, that is all.

Mayor Ellenstein: All right, we will proceed with the meeting. Now, what is your motion?

Commissioner Byrne: I move we transfer one of the present commissioners to the Director of Public Safety.

Mayor Ellenstein: Is there a second to that? If there is no second, of course, I cannot put the motion.

We will proceed to zoning matters.
